
Table of contents

Executive Summary	11
<i>Introduction</i>	11
<i>Approach to quantifying uncertainty</i>	13
<i>Risk premiums</i>	14
<i>Use and interpretation of results</i>	18
1 Introduction	19
Climate change uncertainties	21
Theoretical approaches to dealing with risk	24
2 Approach to Quantifying Uncertainty	33
Relevance to policy makers	36
How do we represent uncertainty?	37
How does the model work?	41
Interpretation of options value	43
Modelling prices	47
Limits of the modelling approach	53
3 Investment Thresholds	55
CO ₂ price risk	55
CO ₂ and fuel price risk	70
Policy options	78
4 Company Perspectives on Managing Risks	91
Importance of market structure	92
Climate change policy risks in the real world	98
Technical and other risks	105
Managing risk	108
5 Implications for Policy Makers	117
Implications for energy projections	118
Creating policy certainty	122
<i>Appendix 1 • Technology Assumptions and Results Summary</i>	131
<i>Appendix 2 • Technology Interaction Effects</i>	133
<i>Appendix 3 • Companies Consulted during the Study</i>	138
