

TABLE OF CONTENTS

Foreword	3
Acknowledgements	4
Executive Summary	14
Analytical Framework	23
Renewable electricity: OECD Americas	26
Summary	26
Canada.....	27
Chile.....	32
Mexico	36
United States	42
References.....	50
Renewable electricity: OECD Asia Oceania	52
Summary	52
Australia	53
Japan.....	59
Korea	64
Other Asia Oceania countries.....	68
References.....	69
Renewable electricity: OECD Europe	70
Summary	70
Denmark	71
France	76
Germany	80
Ireland	85
Italy.....	90
Spain.....	95
Turkey.....	99
United Kingdom.....	103
Other OECD Europe countries.....	109
References.....	111
Renewable electricity: non-OECD	114
Summary	114
Brazil	115
China.....	120
India	128
Morocco	134

South Africa	140
Thailand	144
Other non-OECD countries and regions	151
References	155
Investment in renewable energy.....	158
Summary	158
Recent market trends in renewable energy financing	158
Medium-term enablers and challenges for renewable energy financing	160
References	165
Renewable electricity: technology outlook.....	166
Summary	166
Global trends in renewable power: geographical diffusion and competitiveness	168
Bioenergy for power.....	170
Geothermal	173
Hydropower.....	175
Ocean power	178
Offshore wind.....	180
Onshore wind	183
Solar photovoltaics.....	187
Solar thermal electricity	193
References.....	198
Renewable transport: global biofuels outlook	200
Summary	200
Global overview: weak short-term outlook impacts medium-term projections	201
References.....	214
Renewable heating: global outlook.....	215
Summary	215
Heat in total final energy use: sources and uses.....	216
Renewable heating: market trends, outlook and policy frameworks.....	217
Outlook for renewable heating technologies	222
References.....	229
Tables	231
Glossary of definitions, terms and abbreviations.....	235
Regional definitions.....	235
Abbreviations and acronyms.....	236
Currency codes.....	237
Units of measure	237

LIST OF FIGURES

Figure 1	Global renewable electricity production by region.....	14
Figure 2	Number of countries with non-hydro renewable capacity above 100 megawatts (MW)....	15
Figure 3	Global levelised costs of power generation ranges, first quarter of 2013.....	17
Figure 4	Changes in power generation by source and region, OECD, 2012-18	19
Figure 5	Global biofuels supply, 2012-18.....	20
Figure 6	Global advanced biofuel capacity	20
Figure 7	Global final energy use of renewable sources for heat (including commercial heat)	20
Figure 8	Global renewable electricity generation, the <i>MTRMR 2013</i> projection versus <i>ETP 2DS</i> ...	21
Figure 9	OECD Americas renewable electricity generation and projection (TWh).....	26
Figure 10	Canada power demand versus GDP growth	28
Figure 11	Canada average retail power prices (USD per megawatt hour)	28
Figure 12	Canada power generation by source and renewable share of total power generation....	28
Figure 13	Chile power demand versus GDP growth	32
Figure 14	Chile average retail power prices (USD/MWh)	32
Figure 15	Chile power generation by source and renewable share of total power generation.....	33
Figure 16	Mexico power demand versus GDP growth.....	36
Figure 17	Mexico average retail power prices (USD/MWh)	36
Figure 18	Mexico power generation by source and renewable share of total power generation....	37
Figure 19	Mexico planned power generation additions under POISE 2012-26.....	38
Figure 20	Mexico levelised costs of renewable generation versus new-build gas plants and power prices, 2012 and 2020 expectation by SENER.....	40
Figure 21	US power demand versus GDP growth	43
Figure 22	US average retail power prices (USD/MWh).....	43
Figure 23	US power generation by source and renewable share of power generation.....	44
Figure 24	OECD Asia Oceania renewable electricity generation and projection (TWh)	52
Figure 25	Australia power versus GDP growth	54
Figure 26	Australia average retail demand power prices (USD per megawatt hour).....	54
Figure 27	Australia power generation by source and renewable share of total power generation..	55
Figure 28	Australia levelised costs of power generation for new plants, 2012	58
Figure 29	Japan power demand versus GDP growth	60
Figure 30	Japan average retail power prices (USD/MWh).....	60
Figure 31	Japan power generation by source and renewable share of total power generation.....	61
Figure 32	Korea power demand versus GDP growth	64
Figure 33	Korea average retail power prices (USD/MWh).....	64
Figure 34	Korea power generation by source and renewable share of total power generation	65
Figure 35	OECD Europe renewable electricity generation and projection (TWh)	70
Figure 36	Denmark power demand versus GDP growth.....	72
Figure 37	Denmark average retail power prices (USD per megawatt hour).....	72
Figure 38	Denmark power generation by source and renewable share of total power generation....	73
Figure 39	France power demand versus GDP growth.....	76
Figure 40	France average retail power prices (USD/MWh)	76
Figure 41	France power generation by source and renewable share of total power generation.....	77
Figure 42	Germany power demand versus GDP growth.....	81
Figure 43	Germany average retail power prices (USD/MWh)	81

Figure 44	Germany power generation by source and renewable share of total power generation	82
Figure 45	Ireland power demand versus GDP growth	85
Figure 46	Ireland average retail power prices (USD/MWh).....	85
Figure 47	Ireland power generation by source and renewable share of total power generation	87
Figure 48	Italy power demand versus GDP growth.....	90
Figure 49	Italy average retail power prices (USD/MWh)	90
Figure 50	Italy power generation by source and renewable share of total power generation	91
Figure 51	Spain power demand versus GDP growth.....	95
Figure 52	Spain average retail power prices (USD/MWh)	95
Figure 53	Spain power generation by source and renewable share of total power generation	96
Figure 54	Turkey power demand versus GDP growth	99
Figure 55	Turkey average retail power prices (USD/MWh)	99
Figure 56	Turkey power generation by source and renewable share of total power generation ...	100
Figure 57	United Kingdom power demand versus GDP growth	103
Figure 58	United Kingdom average retail power prices (USD/MWh)	103
Figure 59	United Kingdom power generation by source and renewable share of total generation ..	104
Figure 60	United Kingdom renewable capacity under development (January 2013)	105
Figure 61	Non-OECD renewable electricity generation (TWh)	114
Figure 62	Brazil power demand versus GDP growth.....	116
Figure 63	Brazil average retail power prices	116
Figure 64	Brazil power generation by source and renewable share of total power generation	116
Figure 65	China power demand versus GDP growth	121
Figure 66	China average retail power prices (USD/MWh)	121
Figure 67	China power generation by source and renewable share of total power generation	122
Figure 68	China renewable energy investment during the 12th FYP, 2011-15	125
Figure 69	India power demand versus GDP growth	128
Figure 70	India domestic electricity supply and distribution losses	128
Figure 71	India power generation by source and renewable share of total power generation	129
Figure 72	India state-level RPOs, selected years.....	132
Figure 73	Morocco power demand versus GDP growth	134
Figure 74	Morocco rural electrification rate	134
Figure 75	Morocco power generation by source and renewable share of power generation	135
Figure 76	South Africa power demand versus GDP growth.....	140
Figure 77	South Africa average retail power prices	140
Figure 78	South Africa power generation by source and renewable share of power generation ...	141
Figure 79	South Africa awarded renewable capacity under the REIPPP.....	143
Figure 80	South Africa average awarded tender prices under the REIPPP	143
Figure 81	Thailand power demand versus GDP growth.....	145
Figure 82	Thailand average retail power prices (USD/MWh)	145
Figure 83	Thailand power generation by source and renewable share of total power generation ...	146
Figure 84	New investment in renewable energy by region	159
Figure 85	New investment in renewable energy by technology.....	160
Figure 86	Global renewable electricity generation	166
Figure 87	Number of countries with non-hydro renewable capacity above 100 MW	168
Figure 88	Levelised costs of power generation (USD per megawatt hour), first quarter 2013	170
Figure 89	Bioenergy generation and projection by region	171

Figure 90	Geothermal generation and projection by region	174
Figure 91	Hydropower generation and projection by region	176
Figure 92	Hydropower annual capacity additions (includes pumped storage) by region (GW).....	177
Figure 93	Ocean power generation and projection by region	179
Figure 94	Offshore wind generation and projection by region.....	182
Figure 95	Onshore wind annual capacity additions by region (GW).....	185
Figure 96	Onshore wind generation and projection by region	186
Figure 97	Typical solar PV system prices, by segment (Jan 2013)	187
Figure 98	Solar PV annual capacity additions, by region (GW)	191
Figure 99	Solar PV market segments by country in 2011, as percentage of cumulative capacity...	191
Figure 100	Solar PV generation and projection by region	193
Figure 101	CSP generation and projection by region.....	195
Figure 102	Value and share of global solar PV module and cell exports	197
Figure 103	Global biofuels supply 2012-18	201
Figure 104	Global biofuels supply adjusted for energy content versus oil.....	201
Figure 105	Production costs of biofuels versus oil-based transport fuels	204
Figure 106	OECD Americas biofuels supply, 2012-18	206
Figure 107	US gasoline demand versus projected ethanol production and mandated ethanol use ...	207
Figure 108	Development of RIN prices between December 2012 and April 2013	207
Figure 109	Non-OECD Americas biofuel production, 2012-18.....	208
Figure 110	Gasoline versus ethanol retail price in Brazil	209
Figure 111	Sugar price versus hydrous price in Brazil	209
Figure 112	European biofuel production 2012-18.....	211
Figure 113	China and non-OECD Asia biofuel production, 2012-18	212
Figure 114	Current and future advanced biofuel capacity	213
Figure 115	Global final energy use of renewable sources for heat (including commercial heat)	215
Figure 116	Global final energy consumption for heat by source.....	216
Figure 117	Share of renewable sources in final consumption of energy for heat in selected OECD countries, 2011	218
Figure 118	Global final energy use of renewable sources for heat (including commercial heat)	219
Figure 119	Bioenergy heat production costs versus heating oil and natural gas, 2010 (USD per megawatt hour)	223
Figure 120	Modern bioenergy use for heat and projection.....	224
Figure 121	Solar thermal heat production costs versus gas and electricity, 2012	225
Figure 122	Solar thermal use for heat and projection	226
Figure 123	Geothermal use for heat (excluding heat pumps) and projection.....	228

LIST OF MAPS

Map 1	US renewable portfolio standards by state (March 2013).....	46
Map 2	Australia power transmission system	56
Map 3	Irish Power Grid	86
Map 4	China main wind resource sites and load centre	123
Map 5	Thailand power transmission system and main hydropower plants.....	147

LIST OF TABLES
