

# TABLE OF CONTENTS

<b>FOREWORD</b>	<b>3</b>
<b>ACKNOWLEDGEMENTS</b>	<b>5</b>
<b>EXECUTIVE SUMMARY</b>	<b>11</b>
<b>1. WHO NEEDS THIS BOOK AND WHEN?</b>	<b>15</b>
What Kind of Shortfalls are Covered in this Book?	16
Developing Countries and Saving Electricity in Hurry	17
Security Applications of Saving Electricity in a Hurry	18
<b>2. VIGNETTES OF POWER SHORTFALLS</b>	<b>19</b>
Introduction to the Vignettes	19
A Transformer Fire in Arizona	19
Drought in Brazil	24
California's "Perfect Storm"	30
Europe's Hot Summer	39
New Zealand's Three Electricity Crises	41
Norway's Drought and Early, Cold Winter	46
Ontario Recovers from a Blackout	51
A Flood-damaged Power Plant at Presque Isle	55
A Cold Monday in Sweden	57
Nuclear Plants Shut Down in Tokyo	59
Vignettes Conclusions	63
<b>3. A STRATEGY TO SAVE ELECTRICITY QUICKLY</b>	<b>69</b>
Identify the Kind of Electricity Shortfall	69
Estimate the Probable Duration of the Shortfall	70
Establish a Breakdown of Energy Consumption by End-use During the Shortfall Period	70
Can Electricity Prices Rise Quickly and for whom?	71
Develop a Ranked List of Measures	72
The Next Steps	72
The Final Step: the End of the Shortfall	73
Saving Electricity Slowly	73
Summary of Strategies	74
<b>4. MEASURES TO SAVE ELECTRICITY QUICKLY</b>	<b>75</b>
Operational Changes: "Switch it off"	76
Operational Changes to Conserve Energy in the Residential Sector	77
Operational Changes in Commercial Buildings	77

Operational Changes in Industry and Other Sectors	83
Technical Fixes	85
Retrofits to Existing Equipment	86
Energy-saving Traffic Signals	86
Fuel Switching	88
Daylight Saving Time	90
Folklore "Conservation" Measures that don't Save (Much) Energy	91
<b>5. MOBILISING CONSUMERS TO SAVE ELECTRICITY</b>	<b>95</b>
Introduction	95
The Key Role of Mass Media	96
Three Media Campaigns in Brazil, New Zealand and California	96
Explaining the Electricity Shortfall to Consumers	97
Linking Consumer Actions to Solving the Shortfall	101
When Consumers Take Actions	102
Mass Media Campaigns have an Impact but it is Hard to Measure	103
Real-time Information about System Status	105
After the Shortage Ends: the Transition to Normality... and the Next Shortage	108
Many Levels of Impact Evaluation	109
Conclusions on Mobilising	112
<b>6. HIGHER ELECTRICITY PRICES AS A TOOL TO REDUCE DEMAND QUICKLY</b>	<b>115</b>
Summary of Electricity Price Changes During Shortfalls	115
Is Demand Response Sufficient During a Major Shortfall?	121
Prices Based on Long Term Contracts	122
Conclusions	122
<b>7. CONCLUSIONS</b>	<b>125</b>
Looking Back	125
Loose Ends	126
Summing Up	127

## LIST OF TABLES

<i>2-1. Incidents of Short-term Supply Shortages</i>	20
<i>2-2. Energy Saving Targets in Brazil by Sector</i>	26
<i>2-3. Major Electricity Measures and Programmes in Brazil</i>	27
<i>2-4. Savings by Region in Brazil</i>	29
<i>2-5. State of California Appropriations for Major Demand-side Programmes and Projected Savings in First and Second Years</i>	33

<b>2-6.</b> <i>California Appropriations (and Estimated Power Savings) for Programmes Operated by California Energy Commission</i>	34
<b>2-7.</b> <i>Most Important Motivations for Conserving</i>	35
<b>2-8.</b> <i>Participation, Savings, and Costs of the 20/20 Rebate Programme</i>	36
<b>2-9.</b> <i>Summary of Estimated Electricity Savings</i>	65
<b>4-1.</b> <i>Measures to Reduce Residential Electricity Use Quickly through Operational Changes</i>	78
<b>4-2.</b> <i>Measures to Reduce Commercial Building Electricity Use Quickly through Operational Changes</i>	80
<b>4-3.</b> <i>Measures to Reduce Industrial Electricity Use Quickly through Operational Changes</i>	84
<b>4-4.</b> <i>Operational Measures to Reduce Municipal Electricity Use Quickly through Operational Changes</i>	85
<b>4-5.</b> <i>Retrofit Measures to Conserve Electricity</i>	87
<b>4-6.</b> <i>Fuel Switching Measures</i>	89
<b>6-1.</b> <i>Retail Electricity Price Changes During Shortfalls</i>	119

## LIST OF FIGURES

<b>ES-1.</b> <i>Summary of Estimated Savings Achieved in Regions through Programmes Designed to Save Electricity in a Hurry</i>	11
<b>ES-2.</b> <i>Electricity Demand in Brazil Before and After its Shortfall in 2001</i>	12
<b>ES-3.</b> <i>Example of Advertisement During New Zealand's 2003 Electricity Shortfall</i>	13
<b>2-1.</b> <i>Evolution of Electricity Demand in Brazil</i>	29
<b>2-2.</b> <i>Observed and Adjusted Savings in California's Monthly Peak Electricity Use between 2000 and 2001</i>	37
<b>2-3.</b> <i>Conservation Measures Taken by California Households</i>	39
<b>2-4.</b> <i>Average Monthly Wholesale Electricity Prices in New Zealand, 1999-2003</i>	43
<b>2-5.</b> <i>Advertisements from New Zealand's Target 10% Campaign</i>	45
<b>2-6.</b> <i>Average Electricity Prices (Excluding Taxes) for Major Sectors in Norway</i>	47
<b>2-7.</b> <i>Composition of Household Electricity Prices in Norway</i>	48
<b>2-8.</b> <i>Norway: Production, Consumption and Export</i>	49
<b>2-9.</b> <i>Capacity Factors of Nuclear Plants in Ontario and the United States after the 14 August Blackout</i>	53
<b>2-10.</b> <i>Actual and Forecast Load after the 14 August Blackout</i>	54
<b>2-11.</b> <i>A TEPCO Spokesperson Explains the Electricity Situation</i>	61
<b>2-12.</b> <i>Supply and Demand for Tokyo Electric Power Company During Summer 2003</i>	62

<b>5-1.</b> <i>Japanese Government Advertisement Urging Consumers to Conserve Energy</i>	98
<b>5-2.</b> <i>Three Advertisements in New Zealand's Target 10% Campaign</i>	100
<b>5-3.</b> <i>CFL Share of Medium Screw-based Lamps</i>	104
<b>5-4.</b> <i>California Electricity System Status</i>	107
<b>5-5.</b> <i>Tokyo Electric Power Company Web Site</i>	108
<b>5-6.</b> <i>Available Data to Support Savings Impact</i>	110
<b>5-7.</b> <i>California Energy Savings in 2001 for 218 Programmes</i>	111
<b>6-1.</b> <i>Electricity Spot Prices in Norway</i>	116
<b>6-2.</b> <i>California Wholesale Electricity Prices</i>	116
<b>6-3.</b> <i>Gas and Electricity Prices in Pacific Gas &amp; Electric Company's Service Area</i>	118
<b>7-1.</b> <i>Summary of Estimated Electricity Savings, Duration of Shortfall, and Advance Notice</i>	125
