List of Figures

Chapter 1: The Context

1.1	World Primary Energy Demand and GDP, 1971-2002	42
1.2	Per Capita Income by Region	46
1.3	Average IEA Crude Oil Import Price	48
1.4	Regional Natural Gas Price Assumptions	50
1.5	China's Share of Incremental World Production and Energy Demand, 1998-2003	55

Chapter 2: Global Energy Trends

2.1	Increase in World Primary Energy Demand by Fuel	59
2.2	World Primary Energy Demand by Fuel	60
2.3	World Primary Natural Gas Demand	63
2.4	Primary Energy Intensity	63
2.5	Regional Shares in World Primary Energy Demand	65
2.6	Share of Developing Countries in World Primary Energy Demand by Fuel	65
2.7	Primary Energy Consumption per Capita by Region, 2030	67
2.8	Sectoral Shares in World Primary Energy Demand	68
2.9	Per Capita Energy Consumption in the Residential Sector, 2030	69
2.10	Increase in World Primary Energy Production by Region	70
2.11	Share of Inter-Regional Trade in World Primary Demand by Fossil Fuel	71
2.12	Cumulative Energy Investment, 2003-2030	73
2.13	World Energy-Related CO ₂ Emissions by Fuel	75
2.14	Average Annual Growth in World Primary Energy Demand and Energy-Related CO ₂ Emissions	76
2.15	World Energy-Related CO ₂ Emissions by Region	76
2.16	Per Capita Energy-Related CO ₂ Emissions by Region	77
2.17	Change in Primary Energy Demand and Energy-Related CO ₂ Emissions in the Alternative Policy Scenario, 2010 and 2030	80

Chapter 3: Oil Market Outlook

3.1	Oil Demand and GDP Growth	83
3.2	Oil Intensity by Region	84
3.3	Incremental Oil Demand by Sector, 2002-2030	85
3.4	Share of Transport in Global Oil Demand and Share of Oil in Transport Energy Demand	85
3.5	Vehicle Stock by Region	86
3.6	Per Capita Transport Sector Oil Demand and GDP, 1971-2030	87
3.7	Hydrocarbon-Resource Classification	88

3.8	Crude Oil and NGL Reserves at End 2003	90
3.9	Regional Share of Proven Oil Reserves	91
3.10	Proven Oil Reserves by Region	92
3.11	Ultimately Recoverable Resources of Oil and NGL by Region	94
3.12	Ultimately Recoverable Oil Resources	96
3.13	Non-Conventional Oil Resources Initially in Place	96
3.14	Additions to World Proven Oil Reserves from the Discovery of New Fields and Production	97
3.15	Undiscovered Oil and Gas Resources, 1995 and New Wildcat Wells Drilled, 1993-2002	98
3.16	Cumulative Oil and Gas Discoveries and New Wildcat Wells Drilled, 1963-2002	99
3.17	World Oil Exploration Drilling Success Rate	100
3.18	Oil Reserves in the Troll Field	100
3.19	Oil Production from the Kingfisher Field in the UK North Sea	101
3.20	World Oil Production by Source	103
3.21	Change in Non-OPEC Production and Average IEA Crude Oil Import Price	105
3.22	OPEC Share of World Oil Supply	110
3.23	Canadian Tar Sands Oil Production Cost	114
3.24	Major Net Inter-Regional Oil Trade Flows	116
3.25	Oil Flows and Major Chokepoints, 2003	120
3.26	Cumulative Global Oil Investment, 2003-2030	121
3.27	World Oil Demand in the Reference Scenario and High Oil Price Case	123
3.28	Cumulative Reduction in Oil Demand in the High Oil Price Case by Region and Sector, 2002-2030	124
3.29	Share of OPEC in World Oil Production in the Reference Scenario and the High Oil Price Case	126
3.30	Cumulative Oil Investment in the Reference Scenario and the High Oil Price Case, 2003-2030	127

Chapter 4: Natural Gas Market Outlook

4.1	Incremental Demand for Natural Gas by Region	131
4.2	World Natural Gas Demand by Sector	132
4.3	GTL Production by Region	135
4.4	World Proven Reserves of Natural Gas	137
4.5	Proven Natural Gas Reserves	138
4.6	Natural Gas Production by Region	138
4.7	World Gas-Production Capacity Additions	139
4.8	Share of Middle East Gas in Total Gas Supply by Importing Region	141

4.9	Major Net Inter-Regional Natural Gas Trade Flows, 2002 and 2030	143
4.10	Sources of LNG	144
4.11	Cumulative Investment in Natural Gas, 2003-2030	145
4.12	Ratio of Natural Gas Prices to Oil Price	146
4.13	Natural Gas Demand in OECD North America	148
4.14	US Marketed Gas Production and Drilling	150
4.15	Sources of North American Gas Supply	151
4.16	North American Gas Balance	153
4.17	Gas Demand in the European Union by Sector	154
4.18	Gas Supply Balance in the European Union	155
4.19	Increase in Gas Consumption and Imports in the European Union, 2002-2030	156
4.20	Primary Gas Demand in OECD Asia	158
4.21	Primary Gas Demand in Transition Economies	160
4.22	Primary Gas Demand in Developing Asia	161
4.23	Gas Demand in the Middle East by Sector	163
4.24	African Gas Exports by Region	165
4.25	Latin American Gas Balance	166

Chapter 5: Coal Market Outlook

5.1	World Coal Demand by Sector	171
5.2	Reductions in CO ₂ Emissions through Technological Innovation	174
5.3	Coal Production by Region, 2002-2030	176
5.4	Major Inter-Regional Coal Trade Flows, 2002-2030	177
5.5	International Hard Coal Trade, 1985-2030	178
5.6	Spot Steam Coal Prices and Freight Rates	179
5.7	OECD Europe Coal Balance, 1990-2030	183
5.8	Australian Coal Exports and Share of World Trade, 1990-2030	185
5.9	Coal Production and Exports in China	186
5.10	Coal Production, Demand and Exports in Indonesia	189

Chapter 6: Electricity Market Outlook

6.1	GDP and Electricity Demand Growth	192
6.2	Sectoral Growth in Electricity Demand	194
6.3	Indicative Mid-Term Generating Costs of New Power Plants	195
6.4	CO ₂ Emissions by Type of Plant	196
6.5	World Electricity Generation, 2002 and 2030	198
6.6	Share of Natural Gas in Electricity Generation	199
6.7	Share of Natural Gas in Electricity Generation by Region	199
6.8	Share of Nuclear Power in Electricity Generation in OECD Countries, 2002	202
6.9	Nuclear Plant Capacity Additions by Region, 2003-2030	202

6.10	Renewables in World Electricity Generation	204
6.11	Commercial Availability and Efficiency Improvements of Key Technologies, 2002-2030	205
6.12	Fuel Requirements in Power Plants	207
6.13	Impact of Plant Age on OECD Capacity Requirements	209
6.14	Capacity Requirements by Region	209
6.15	World Power Generating Capacity Additions and Investment, 2003-2030	210
6.16	Investment Requirements in Electricity Generation, Transmission and Distribution by Region	210
6.17	Power-Sector CO ₂ Emissions by Region	211
6.18	Power-Sector CO ₂ Emissions of Coal, Oil and Gas-Fired Power Plants	212
6.19	US Capacity Additions since 1997	217
6.20	US Natural Gas Prices and Share of Gas in Electricity Generation	218
6.21	Growth in Installed Generating Capacity, Peak Load and Available Capacity in the European Union	219
6.22	Annual Growth Rates of Electricity Generation and Installed Capacity in China, 1980-2002	221

Chapter 7: Renewable Energy Outlook

7.1	World Renewable Energy Consumption by Region	227
7.2	Share of Renewables in Electricity Generation by Region, 2002	228
7.3	Shares of Non-Hydro Renewables in Power Generation in 2002 and 2030	229
7.4	Share of Non-Hydro Renewables in Electricity Generation in OECD Countries, 1997 and 2002	230
7.5	Electricity Generation from Non-Hydro Renewables in OECD Countries, 2002	231
7.6	World Electricity Generation from Non-Hydro Renewable Energy Sources	231
7.7	World Long-Term Renewable-Energy Potential for Electricity Generation	232
7.8	Capital Costs of Renewable Energy Technologies, 2002 and 2030	233
7.9	Electricity-Generating Costs of Renewable Energy Technologies, 2002 and 2030	233
7.10	Wind Power Costs	236
7.11	Share of Geothermal Power in Total Electricity Generation, 2002	238
7.12	Renewables Capacity Additions, 2003-2030	239

7.13	Projected Share of Solar in Energy Consumption for Hot Water in the OECD	240
------	--	-----

Chapter 8: Regional Outlooks

8.1	Primary Energy Demand in OECD Countries	244
8.2	GDP and Primary Energy Demand Growth in North America	246
8.3	Net Imports of Oil and Gas as Share of Primary Demand in North America	249
8.4	Fuel Shares in Primary Energy Demand in the European Union	252
8.5	Fossil Fuel Net Imports in the European Union	253
8.6	Energy-Related CO ₂ Emissions in the European Union	253
8.7	Changes in Electricity Generation by Fuel in OECD Asia	256
8.8	Increase in Energy-Related CO ₂ Emissions by Sector in OECD Asia	257
8.9	Primary Energy Demand in Developing Countries	260
8.10	Household Energy Consumption in Developing Countries	261
8.11	Share of Developing Asia in World Incremental Energy Demand	261
8.12	China's Share in the Global Economy and Energy Markets	265
8.13	Vehicle Stock and Oil Demand for Road Transport in China	266
8.14	Oil Balance in China	266
8.15	Primary Energy Demand in India	270
8.16	Total Final Energy Consumption per Capita in India	271
8.17	Oil Balance in Indonesia	272
8.18	Oil Balance in Brazil	276

Chapter 9: Russia – an In-Depth Study

9.1	Share of Russia in World Energy, 2002	285
9.2	Primary Energy Demand and GDP in Russia	285
9.3	Primary Energy Demand by Fuel in Russia	286
9.4	Growth in Industrial Production in Russia	288
9.5	Contribution of Oil and Gas Sectors to GDP in Selected Countries, 2002	289
9.6	Real Average Electricity and Natural Gas Prices in Russia	293
9.7	Fuel Shares in Primary Energy Demand in Russia	295
9.8	Total Final Consumption by Fuel in Russia	296
9.9	Energy Intensity Indicators in Russia	297
9.10	Energy Services and GDP in Russia	298
9.11	Energy Intensity of Industrial Production in Selected Sectors and Countries, 2000	299
9.12	Energy Intensity of Iron and Steel Production in Selected Countries	299
9.13	Russian Oil Balance	301
9.14	Russian Oil Basins and Pipelines	302

9.15	Russian Gas Balance	308
9.16	Major Gas Reserves and Supply Infrastructure in Russia	310
9.17	Russian Coal Balance	316
9.18	Net Additions to Power-Generation Capacity in Russia	318
9.19	Proposed Structure of the Russian Electricity Industry after Planned Reforms	322
9.20	Russian Fossil-Fuel Exports as Share of World Inter-Regional Trade	324
9.21	Cumulative Energy Investment Needs in Russia, 2003-2030	326
9.22	Energy-Related CO ₂ Emissions in Russia	327

Chapter 10: Energy and Development

10.1	HDI and Primary Energy Demand per Capita, 2002	334
10.2	Average Primary Energy Demand per Capita and Population Living on Less than \$2 a Day, 2002	335
10.3	Final Energy Consumption per Capita by Fuel and Proportion of People in Poverty in Developing Countries, 2002	338
10.4	HDI and Electricity Consumption per Capita, 2002	339
10.5	Electricity and Improved Water Access, 2002	341
10.6	Selected Developing Countries Ranked on the Energy Development Index, 2002	343
10.7	EDI and HDI in Developing Countries, 2002	346
10.8	Outlook for Energy Development Index by Region	347
10.9	Electricity Deprivation	349
10.10	World Population without Electricity in Rural and Urban Settings	350
10.11	The Energy Implications of Halving Poverty in Developing Countries by 2015	352

Chapter 11: World Alternative Policy Scenario

11.1	Energy Demand in the Reference and Alternative Scenarios	373
11.2	Change in Energy Intensity in the Reference and Alternative Scenarios, 2002-2030	374
11.3	Reduction in Oil Demand by Sector in the Alternative Scenario, 2030	375
11.4	Net Natural Gas Imports in Selected Regions in the Reference and Alternative Scenarios, 2030	376
11.5	Global Energy-Related CO ₂ Emissions in the Reference and Alternative Scenarios	377
11.6	Cumulative Reduction in Energy-Related CO ₂ Emissions by Region in the Alternative Scenario, 2002-2030	378
11.7	Reduction in Energy-Related CO ₂ Emissions in the Alternative Scenario by Contributory Factor, 2002-2030	379

11.8	Difference in Cumulative Energy Investment between the Reference and Alternative Scenarios by Region, 2003-2030	381
11.9	Energy-Supply Investment in the Reference and Alternative Scenarios, 2003-2030	383
11.10	Capital Intensity of Energy Supply in the Reference and Alternative Scenarios, 2003-2030	383
11.11	Reduction in Demand for Fossil Fuels in the Alternative Scenario by Region, 2030	384
11.12	OECD Energy-Related CO ₂ Emissions in the Reference and Alternative Scenarios	385
11.13	Change in Energy Demand in the Alternative Scenario in the Largest Non-OECD Countries, 2030	391
11.14	Fuel Shares in Electricity Generation in the Reference and Alternative Scenarios, 2030	398
11.15	Share of Non-Hydro Renewables in Electricity Generation in the Reference and Alternative Scenarios by Region, 2030	400
11.16	CO ₂ Emissions per kWh of Electricity Generated in the Reference and Alternative Scenarios	400
11.17	Average Vehicle Fuel Efficiency for New Light Duty Vehicles in Selected Regions, 2002	402
11.18	Oil Demand for Transport in the Reference and Alternative Scenarios by Region	404
11.19	Reduction in Industrial Energy Demand by Sector in the Alternative Scenario, 2030	407
11.20	Reduction in Electricity Demand in the Residential and Services Sectors in the Alternative Scenario, 2030	411
11.21	Global Energy-Related CO ₂ Emissions in the Reference and Alternative Scenarios and the CCS Case	413

List of Tables

Chapter 1: The Context

1.1	Economic Growth Assumptions	44
1.2	Population Growth Assumptions	45
1.3	Fossil-Fuel Price Assumptions	47

Chapter 2: Global Energy Trends

2.1	World Primary Energy Demand	59
2.2	World Total Final Consumption	68
2.3	Energy-Related CO ₂ Emissions	75

Chapter 3: Oil Market Outlook

3.1	World Oil Demand	82
-----	------------------	----

3.2	Top 10 Countries with Proven Oil Reserves	91
3.3	USGS Estimates of Ultimately Recoverable Oil and NGL Resources	94
3.4	Impact of Different Oil-Resource Assumptions on Production Outlook	102
3.5	World Oil Supply	106
3.6	Planned Additions to Non-Conventional Oil Production Capacity in Canada and Venezuela	115
3.7	Oil-Import Dependence in Net Importing Regions	117
3.8	Oil and LNG Tanker Traffic through Strategic Maritime Channels	119
3.9	Oil Production in Reference Scenario and High Oil Price Case	125

Chapter 4: Natural Gas Market Outlook

4.1	World Natural Gas Primary Demand	130
4.2	Gas-Import Dependence	140
4.3	Existing and Planned LNG Capacity in North America, September 2004	153
4.4	Status of Gas Market Liberalisation in the European Union	157
4.5	LNG Projects in India	162

Chapter 5: Coal Market Outlook

5.1	World Coal Demand	170
5.2	Proven Coal Reserves at End-2002	175

Chapter 6: Electricity Market Outlook

6.1	Electricity's Share of Energy Demand by Sector	193
6.2	Top-Ten Electricity Markets in 2002	194
6.3	Market Shares in Electricity Generation	197
6.4	Electricity Generation from Renewable Energy Sources	204
6.5	New Electricity Generating Capacity and Investment by Region, 2003-2030	208
6.6	Nuclear Power Reactors in China, 2004	222

Chapter 7: Renewable Energy Outlook

7.1	World Renewable Energy Consumption	226
-----	------------------------------------	-----

Chapter 8: Regional Outlooks

8.1	Primary Energy Demand in the OECD	245
8.2	Primary Energy Demand in North America	247
8.3	Primary Energy Demand in the European Union	251
8.4	Primary Energy Demand in OECD Asia	255
8.5	Primary Energy Demand in OECD Oceania	258
8.6	Primary Energy Demand in China	264

8.7	Electricity-Generation Mix in China	268
8.8	Primary Energy Demand in Brazil	276
8.9	Electricity-Generation Mix in Brazil	277
8.10	Primary Energy Demand in the Middle East	278
8.11	Population Structure in the Middle East	279

Chapter 9: Russia – an In-Depth Study

9.1	Key Economic and Energy Indicators for Russia and the World	287
9.2	Macroeconomic and Demographic Assumptions for Russia	290
9.3	Russian <i>Energy Strategy</i> and <i>WEO-2004</i> Projections to 2020	292
9.4	Total Primary Energy Demand in Russia	295
9.5	Russian Gas Production of Non-Gazprom Companies	312
9.6	Electricity Generation Fuel Mix in Russia	318

Chapter 10: Energy and Development

10.1	Contribution of Factors of Production and Productivity to GDP Growth in Selected Countries, 1980-2001	333
10.2	Commercial Energy Use and Human Development Indicators, 2002	336
10.3	Dominant Fuels in Developing Countries by End-Uses	337
10.4	Number of People without Electricity, 2002	340
10.5	Energy Development Index for Developing Countries, 2002	344
10.6	Population Relying on Traditional Biomass for Cooking and Heating	348
10.7	Electrification Rates by Region	348
10.8	Impact of Meeting MDG Poverty-Reduction Target on the Number of People without Electricity and Investment in Developing Countries	351

Chapter 11: World Alternative Policy Scenario

11.1	Changes in Energy-Related CO ₂ Emissions by Sector and by Region in the Alternative Scenario, 2030	379
11.2	Additional Demand-Side Investment in the Alternative Scenario, 2003-2030	382
11.3	Main Policies Considered in the Alternative Scenario in OECD North America	387
11.4	Main Policies Considered in the Alternative Scenario in the EU	388
11.5	Main Policies Considered in the Alternative Scenario in OECD Pacific	390
11.6	Main Policies Considered in the Alternative Scenario in Russia	392
11.7	Main Policies Considered in the Alternative Scenario in China	393
11.8	Main Policies Considered in the Alternative Scenario in India	395
11.9	Main Policies Considered in the Alternative Scenario in Brazil	396

11.10	Changes in Electricity Generation by Fuel in the Alternative Scenario	399
11.11	Changes in Transport Energy Consumption and CO ₂ Emissions in the Alternative Scenario	403
11.12	Changes in Transport Energy Consumption and CO ₂ Emissions in the Alternative Scenario by Region	403
11.13	Change in Industrial Energy Consumption in the Alternative Scenario, 2030	406
11.14	Change in Residential and Services Sector Energy Consumption in the Alternative Scenario, 2030	410

List of Boxes

Chapter 1: The Context

1.1	Explaining High Oil Prices: The Risk Premium and Fundamentals	49
1.2	Impact of High Gas Prices on US Manufacturing Industry	51
1.3	The Impact of High Oil Prices on the Global Economy	54

Chapter 2: Global Energy Trends

2.1	What is Included in Primary Energy Demand	61
2.2	Recent Trends in Global Energy Demand	64
2.3	Status of the Kyoto Protocol	79

Chapter 4: Natural Gas Market Outlook

4.1	Status of GTL Projects	134
4.2	Sensitivity of US Gas Demand to Higher Prices	149

Chapter 5: Coal Market Outlook

5.1	FutureGen: Zero-Emission Technologies	173
5.2	Non-Physical Trading of Steam Coal	180

Chapter 6: Electricity Market Outlook

6.1	Nuclear Policy in OECD Countries	201
6.2	Major Blackouts in OECD Countries in 2003	214

Chapter 7: Renewable Energy Outlook

7.1	Economics of Wind-Power Integration	235
-----	-------------------------------------	-----

Chapter 9: Russia – an In-Depth Study

9.1	Russian Energy Strategy	292
9.2	Profile of Gazprom	309
9.3	The Outlook for Nuclear Power in Russia	319

Chapter 10: Energy and Development

10.1	UNDP Human Development and Poverty Indices	331
10.2	Assessing the Contribution of Energy to Economic Growth	332
10.3	The IEA Energy Development Index	342
10.4	The UN Millennium Development Goals	351

Chapter 11: World Alternative Policy Scenario

11.1	Example of OECD Policies Included in the Alternative Policy Scenario: the EU Renewables Target	370
11.2	Example of Non-OECD Policies Included in the Alternative Policy Scenario: Vehicle Efficiency in China	371
