FOREWORD BY THE EXECUTIVE DIRECTOR OF THE IEA.....	5
FOREWORD BY THE CHAIR OF THE CIAB.....	7
TABLE OF CONTENTS.....	9
QUESTIONS POSED AND A SUMMARY OF THE INDUSTRY'S RECOMMENDATIONS	11
1. HOW CAN COAL-FIRED GENERATION ALLEVIATE POVERTY IN DEVELOPING COUNTRIES?	15
● Summary of Responses to Question 1	15
● Discussion	17
● Recommendations for Future Action	18
2. HOW IS INVESTMENT IN THE COAL INDUSTRY AFFECTED BY LIBERALISATION OF ELECTRICITY GENERATION AND CARBON POLICIES, INCLUDING EMISSIONS TRADING?	19
● Summary of Responses to Question 2	20
● Summary of Responses to Question 3	21
● Summary of Responses to Question 4	22
● Discussion	22
● Recommendations for Future Action	23
3. HOW CAN THE COAL INDUSTRY CONTRIBUTE TO TECHNOLOGICAL ADVANCES IN THE HYDROGEN ECONOMY AND IN CARBON CAPTURE AND SEQUESTRATION?	25
● Summary of Responses to Question 5	25
● Summary of Responses to Question 6	27
● Discussion	28
● Recommendations for Future Action	29
4. HOW CAN THE COAL INDUSTRY CONTRIBUTE TO INTERNATIONAL ENERGY SECURITY?	31
● Summary of Responses to Question 7	32
● Summary of Responses to Question 8	32
● Summary of Responses to Question 9	33
● Summary of Responses to Question 10	34
● Discussion	34
● Recommendations for Future Action	35
5. CIAB MEMBERS' RESPONSES TO INVESTMENT QUESTIONS	37
● How can the electrification of the economies of developing countries be accelerated to alleviate poverty, and how may the coal industry aid this acceleration?	37

● How is the liberalization of electricity generation affecting investment in the coal chain?	42
● How will the financing of coal production, rail and port infrastructure and coal-fired generation be achieved given the uncertainty surrounding future carbon policies?.....	49
● How will emissions trading of greenhouse gases affect coal mine and coal-fired generation development?	57
● What are the prospects for coal to contribute to the hydrogen economy?	64
● How can the coal industry promote further advances in carbon capture and sequestration?	70
● How can coal reduce energy import dependence for countries with indigenous coal reserves and market, and reduce supply disruption risk for those countries without such reserves?	79
● How quickly can the coal industry respond to resolve energy security problems that may occur in the future because of failures in energy supply, for example from increased reliance on natural gas?	85
● How can the coal industry maintain its diversity of supply sources given changing economics?.....	95
● How can continued robust coal investment worldwide promote more stable global energy markets?	102
