

TABLE OF CONTENTS

FOREWORD BY THE EXECUTIVE DIRECTOR OF THE IEA	3
FOREWORD BY THE CHIEF ENGINEER OF THE NATIONAL ENERGY ADMINISTRATION OF THE NDRC	5
ACKNOWLEDGEMENTS	7
PHOTOGRAPH CREDITS	10
I. EXECUTIVE SUMMARY	17
China’s surging coal use	18
<i>Managing the exploitation of China’s coal resources</i>	19
<i>Industry restructuring</i>	19
<i>Coal mining safety</i>	20
<i>Competitive markets</i>	20
Steps towards sustainable coal use	21
<i>Promoting cleaner coal technologies</i>	22
<i>Developing new cleaner coal technologies</i>	23
<i>Deploying well-proven technologies and practices</i>	23
<i>Importance of effective regulations</i>	23
<i>Creating an international price for pollution</i>	24
<i>China’s role in a cleaner future</i>	25
International engagement on cleaner coal	25
II. INTRODUCTION	27
Background	27
Drivers for cleaner coal	28
Stakeholders	31
Scope and structure of the report	31
References	34
III. COAL IN CHINA TODAY	35
Coal resources and reserves	35
Coal supply	38
Coal mine safety, environmental protection and miner welfare	45

Coal transport	47
Coal demand and stocks	49
Evolution of coal markets, pricing and government oversight	53
<i>From a centrally planned economic system to a functioning coal market.</i>	53
<i>Coal pricing.</i>	56
<i>Establishing markets and reforming prices: the case of Shanxi.</i>	59
Major current coal-related legislation and regulations	60
<i>Legislation and regulations</i>	60
<i>Coal-mining licences</i>	61
<i>Coking sector licensing</i>	64
<i>Coal-fired power generation licensing.</i>	64
Coal industry administration: custom and practice	65
Coal mining safety and closure of small coal mines	67
References	68
IV. COAL AND ITS ALTERNATIVES IN CHINA'S ENERGY FUTURE	71
Coal supply and demand projections	71
<i>Prediction of coal demand and supply by NDRC</i>	71
<i>Coal demand projections by other Chinese organisations</i>	72
<i>Coal demand and supply scenarios from IEA World Energy Outlook 2007</i> ...	74
<i>Coal demand projection from US EIA International Energy Outlook 2007.</i> ...	76
Alternatives to coal	77
<i>Oil.</i>	77
<i>Natural gas.</i>	79
<i>Nuclear power.</i>	81
<i>Large-scale hydropower.</i>	82
<i>Renewable energies</i>	83
<i>Hydrogen as an energy carrier</i>	88
<i>Energy efficiency.</i>	88
<i>Conclusions.</i>	89
References	89
V. A CLEANER FUTURE FOR COAL IN CHINA: THE ROLES OF TECHNOLOGIES AND POLICY	93
Technology review	94
<i>Coal mining</i>	94
<i>Coalbed methane and coal mine methane</i>	95
<i>Coal preparation</i>	99
<i>Coal-fired power generation</i>	100
<i>Coal-to-liquids (CTL)</i>	104
<i>Carbon dioxide capture and storage</i>	106

Policy review	107
<i>Policies and regulations for coal mining</i>	107
<i>Policies on coal preparation</i>	112
<i>Policies and regulations for CBM/CMM development and utilisation</i>	113
<i>Policies on power generation</i>	116
<i>Coal chemicals and CTL policies</i>	119
<i>Other relevant policies</i>	120
R&D requirements	121
<i>Coal preparation</i>	121
<i>Power generation</i>	121
<i>Coal gasification and CTL</i>	122
<i>CO₂ capture and storage</i>	123
Technology transfer and international co-operation	123
<i>Experience with technology transfer to date</i>	123
<i>A commercial framework for future international co-operation and technology transfer</i>	124
References	125
VI. A CLEANER FUTURE FOR COAL IN CHINA: THE ROLES OF MARKETS AND INSTITUTIONS	131
Market outlook	131
<i>Influence of government policy on short- and medium-term outlook</i>	131
<i>Coal demand outlook</i>	134
<i>Coal supply and price outlook</i>	135
<i>Outlook for imports and exports</i>	136
Legal and regulatory outlook	138
<i>Evolution of government policy</i>	138
<i>Evolution of coal sector administration</i>	140
<i>Future revisions to coal-related legislation and regulations</i>	146
<i>Towards cleaner energy</i>	149
References	150
VII. COAL INDUSTRY EXPERIENCE IN OTHER COUNTRIES	153
Trends in large coal-using countries: past and present	154
<i>Long-established industrialised countries</i>	155
<i>Newer industrialised countries</i>	158
<i>A developing industrial economy</i>	160
<i>Transition economies</i>	160
<i>Conclusions and relevance for China</i>	162
Tackling technical and social issues during coal industry restructuring ..	164
<i>Coal industry restructuring in European IEA member countries</i>	165
<i>Coal industry restructuring in the United States</i>	176
<i>Summary of experience in IEA member countries and relevance to China</i>	184

Development of coal-related law in IEA member countries	187
<i>The development of rights acquisition and tenure law</i>	188
<i>The development of health and safety law</i>	190
<i>Pollution control and other environmental legislation.</i>	195
<i>Elements from legislation in IEA member countries relevant to China.</i>	203
Conclusions from coal-policy experience in IEA member countries and the global transition to cleaner coal	204
<i>Applying coal-policy experience in China</i>	205
<i>The global transition to cleaner coal</i>	207
References	208
VIII. DOMESTIC AND INTERNATIONAL STUDIES RELEVANT TO CLEANER COAL IN CHINA	213
Overview of domestic studies.	213
<i>Coal industry development.</i>	213
<i>Prospects for coalbed methane and coal mine methane</i>	215
<i>Development and commercialisation of clean coal technologies.</i>	215
<i>Prospects for coal-to-liquids</i>	217
<i>Prospects for local coal utilisation</i>	218
Overview of international studies and projects.	219
Motivation of organisations engaged in studies and projects	220
<i>Coal industry restructuring studies and projects</i>	220
<i>Market-related technology assessments.</i>	220
<i>Strategic and commercial studies.</i>	221
<i>Topical reviews.</i>	222
<i>Other studies.</i>	222
Key recommendations from studies	222
<i>Asian Development Bank studies and projects.</i>	222
<i>World Bank studies and projects</i>	225
<i>Market-related technology assessments.</i>	230
<i>Strategic and commercial studies.</i>	231
<i>Topical reviews.</i>	234
Critique of recommendations made in studies and projects	237
<i>Coal industry restructuring studies and projects</i>	237
<i>Market-related technology assessments.</i>	239
<i>Strategic and commercial studies.</i>	239
References	240
IX. CHINA'S INTERNATIONAL COLLABORATION ON CLEANER COAL	247
Current bilateral and multilateral collaboration	247
<i>Introduction.</i>	247

<i>Bilateral collaboration agreements</i>	249
<i>Multilateral collaboration agreements</i>	255
Improving international collaboration	260
<i>Challenges</i>	261
<i>Towards more effective transfer of clean coal technologies</i>	261
<i>Critique of bilateral collaboration</i>	263
<i>Critique of multilateral collaboration</i>	264
<i>Proposals for future collaboration</i>	265
References	268
X. CONCLUSIONS AND RECOMMENDATIONS	273
Coal resources, markets and transport	275
<i>Coal resources</i>	276
<i>Coal markets</i>	278
<i>Coal transport</i>	279
Clean coal technologies and environmental security	280
<i>Coal mining</i>	281
<i>Coal transport</i>	282
<i>Coal-fired power generation</i>	283
<i>Well-proven technologies and practices</i>	285
Coal-industry restructuring, social welfare and mine worker safety	286
<i>Coal industry restructuring</i>	286
<i>Social welfare</i>	287
<i>Mine worker safety</i>	288
International collaboration	289
A cleaner coal strategy for China	294
References	296
ACRONYMS, ABBREVIATIONS AND UNITS	297
BIBLIOGRAPHY	307

ANNEXES

The annexes are freely available on-line from the IEA (www.iea.org).

- I. Data on coal resources, reserves, production, mine worker numbers and safety, and transport in China
- II. Major national laws and regulations pertaining to the coal sector in China, with examples of local laws from Shanxi, Inner Mongolia and Henan
 - National legislation currently in force*
 - Local legislation currently in force*

III. Long titles of Chinese laws

IV. Other current bilateral and multilateral collaboration

Canada-China Working Group on Climate Change

India-China co-operation on climate change

Asia-Pacific Network on Global Change Research

ASEAN +3

China Council for International Cooperation on Environment and Development

V. Coal industry restructuring in Poland

Introduction

Background to restructuring

Hard coal sector employment

Employment support

Socio-economic aspects

Benefits and pensions

Relevance to China
