

TABLE OF CONTENTS

FOREWORD	3
ORGANISATION OF THE REVIEW AND ACKNOWLEDGEMENTS ..	5
Ministry of Energy and Mineral Resources of Indonesia	5
Energy sector data used in the Review	5
Organisations engaged in the course of the Review	6
IEA member countries contributions	7
The IEA Review Team	7
I. EXECUTIVE SUMMARY	23
The setting	23
Domestic energy pricing and subsidies	24
Policy co-ordination, decision making and implementation	25
Energy sector investment	26
Independence and authority of energy regulators	26
Energy efficiency	27
Renewable energy in the energy mix	28
II. GOVERNMENT POLICY, STRUCTURE AND PROCESS	29
Overview	29
<i>Resources and policy</i>	29
<i>Important aspects of energy policy</i>	30
Sources of law	31
<i>Principle legislation</i>	31
<i>Judicial review</i>	32
<i>Decentralisation</i>	33
<i>Procedures for constructing laws and regulations</i>	35
<i>The new Energy Law</i>	36

Agencies of government.	37
<i>Ministry of Energy and Mineral Resources</i>	37
<i>Implementing Body for Oil and Gas Upstream Operations (BP MIGAS)</i>	42
<i>Regulatory Body for Oil and Gas Downstream (BPH MIGAS)</i>	43
<i>Ministry of State Owned Enterprises</i>	44
<i>Ministry of Finance</i>	44
Planning	45
<i>The planning cycle</i>	45
<i>Implementation of plans</i>	46
Co-ordination	47
<i>National Development Planning Agency (BAPPENAS)</i>	47
<i>Co-ordinating Ministry for Economic Affairs</i>	47
<i>National Energy Co-ordination Board (BAKOREN)</i>	48
Conclusions and recommendations.	48
III. INVESTMENT AND TRADE	53
Overview	53
Status	53
<i>Energy sector's contribution to Indonesia's economy</i>	53
<i>Current policies and laws</i>	55
Key issues for investment	58
<i>Long-term certainty</i>	58
<i>Legal risk</i>	59
<i>Subsidised pricing</i>	59
<i>Tendering and approval process</i>	60
<i>GOI management of investment approval co-ordination and implementation</i>	60
<i>Internal government communication</i>	60
<i>Need for visible results</i>	61
<i>Anti-corruption</i>	61
Conclusions and recommendations.	61
IV. ENERGY AND ENVIRONMENT	63
Overview	63
Institutional aspects	64
<i>Funding</i>	65
<i>Legislation and institutions</i>	65
<i>Institutional capacity</i>	67
<i>Mainstreaming the environment</i>	67

Air quality	68
<i>Monitoring air quality</i>	68
<i>Vehicle emissions and controls</i>	69
<i>Fuel standards</i>	70
<i>Industry emissions and controls</i>	71
Coal mining	72
<i>Environmental performance</i>	73
Climate change	74
<i>Greenhouse gas emissions</i>	74
<i>Clean Development Mechanism</i>	75
Conclusions and recommendations.	75
V. ENERGY EFFICIENCY AND CONSERVATION	77
Overview	77
<i>Current regulations, policies and programmes</i>	77
<i>Key players and the institutional setting</i>	79
Key issues and cross-sectoral challenges	79
<i>Cost reflective pricing</i>	80
<i>Energy end-use data and energy indicators</i>	80
<i>Determining longer term energy efficient technology options</i>	80
<i>Integrating the EE&C players</i>	81
<i>Capacity building</i>	81
What is possible?	81
<i>Supply side efficiency</i>	81
<i>Demand side energy management</i>	82
Conclusions and recommendations.	87
VI. RENEWABLE ENERGY	91
Overview	91
Institutional framework of renewable energy development	92
Renewable energy policy and its targets.	93
The renewable energy market and opportunities	95
<i>Biofuels</i>	95
<i>Biomass waste energy</i>	98
<i>Hydropower</i>	99
<i>Geothermal power</i>	100

<i>Wind energy</i>	101
<i>Solar energy</i>	101
Financing renewable energy	102
Key barriers to renewable energy technologies entry	103
Conclusions and recommendations.	103
VII. UPSTREAM OIL AND GAS	105
Overview	105
Resources and production	105
<i>Resource potential</i>	105
<i>Reserves</i>	106
<i>Exploration and production</i>	108
Market liberalisation and regulation.	110
<i>Pertamina</i>	110
<i>Sectoral policy and regulation</i>	111
<i>Companies active in Indonesia</i>	113
Exploration	113
<i>Bidding rounds</i>	113
<i>Exploration activity and blocks awarded</i>	115
<i>Exploration policy</i>	116
Production Contracts	116
<i>Production Sharing Contracts (PSC)</i>	117
<i>Technical Assistance Contract</i>	119
<i>Enhanced Oil Recovery Contract</i>	119
<i>Plan of Development</i>	120
Conclusions and recommendations.	120
VIII. OIL DOWNSTREAM	121
Overview	121
Market liberalisation and regulation.	121
<i>Oil and Gas Law No. 22/2001</i>	122
<i>Market regulation</i>	122
Domestic demand.	124
Imports	125
Petroleum refining	126

<i>Current petroleum refining capacity</i>	126
<i>Refinery crude oil requirements and product specification</i>	129
<i>New refinery projects</i>	130
Pricing and subsidies	130
<i>Subsidised fuels</i>	131
<i>Non-subsidised fuels</i>	132
<i>Fuel subsidy reduction programmes</i>	132
<i>Continuing impact of international oil price increases</i>	133
Distribution and retail market	134
<i>Pertamina and the changing market structure</i>	134
Emergency response measures	136
<i>Implementing provisions of the new Energy Law</i>	136
Conclusions and recommendations	137
IX. GAS DOWNSTREAM	139
Overview	139
Policy objectives	139
Domestic gas sector structure	140
<i>Transmission and distribution systems</i>	140
<i>LNG receiving/regasification terminals</i>	144
<i>Demand</i>	144
<i>Pricing</i>	145
Market liberalisation and regulation	146
National gas transmission and distribution network master plan	148
Coal bed methane as an alternative gas source	149
Conclusions and recommendations	150
X. COAL	153
Overview	153
Coal policy and administration	153
<i>Ownership and management of coal developments</i>	155
<i>Investment regulations and taxation</i>	156
Resources and reserves	156

Industry structure.	158
<i>Coal Contract of Work</i>	158
<i>Mining Authorisation</i>	160
<i>Small scale mining and illegal mining</i>	160
<i>Future industry structure</i>	161
Production.	161
<i>By province</i>	161
<i>By contract type</i>	162
<i>By major producer</i>	162
<i>Infrastructure and transportation</i>	164
Exports.	164
<i>By destination</i>	165
<i>By exporter</i>	166
<i>Outlook</i>	166
Domestic coal demand.	167
<i>Clean coal technologies</i>	168
Coal liquefaction and coal upgrading.	169
Conclusions and recommendations.	169
XI. ELECTRICITY	171
Overview	171
Industry structure.	171
<i>Installed capacity</i>	172
<i>Generation</i>	172
<i>Forecast demand</i>	175
Electricity tariff shortfall	175
<i>Asian financial crisis and its aftermath</i>	175
<i>Political limits to addressing the revenue shortfall</i>	176
<i>Government subsidies to cover revenue shortfall</i>	176
Infrastructure investment	177
Government policy response	180
<i>Electricity Fast Track/“Crash” Programme</i>	181
<i>Investment, costs and the electricity tariff</i>	182
<i>Infrastructure and coal supply issues</i>	183
<i>Impact on the scope for power generation diversification</i>	185
<i>Addressing electricity tariffs</i>	185

Rural electrification	187
<i>Electrification rates</i>	187
<i>Electrification targets</i>	187
<i>Incentives to expand rural electrification</i>	188
Conclusions and recommendations.	189
XII. NUCLEAR POWER	191
Organisation of national nuclear programme	191
Status of nuclear power programme.	192
<i>Nuclear power in national energy planning</i>	193
<i>Ownership of NPP</i>	194
<i>Public perception and acceptance</i>	194
The National Atomic Energy Agency (BATAN)	195
<i>Nuclear research facilities</i>	195
<i>Human resource development</i>	197
The Nuclear Energy Regulatory Agency (BAPETEN).	197
<i>Nuclear power plant licensing</i>	199
<i>Review and assessment of the licensing process</i>	201
<i>Human resource development</i>	202
Funding of NPP nuclear waste management and future NPP decommissioning	202
Conclusions and recommendations.	202
XIII. ENERGY RESEARCH, DEVELOPMENT AND TRAINING	205
Best practice in energy R&D and training	205
Institutions structure, roles and responsibilities	206
<i>State Ministry for Research and Technology and the Agency for Assessment and Application of Technology (BPPT)</i>	207
<i>Agency for Research and Development, MEMR</i>	208
<i>Agency of Geology, MEMR</i>	210
<i>Ministries of Agriculture and of Forestry</i>	211
Co-ordination	211
Linking energy research and development to national policy goals. .	212
Evaluating research and development progress.	212
Research and development funding	213

Outreach	214
The role of the private sector	214
Training and human capacity	214
<i>Agency for Education and Training, MEMR</i>	215
Basic science research	217
International co-operation.....	217
Conclusion and recommendations	218

ANNEXES 221

I. Indonesia energy balance 2006	221
Indonesia energy balance 2007	222
II. International Energy Agency ‘Shared Goals’.....	223
III. Glossary and list of abbreviations.....	225
IV. References.....	231

List of tables

2.1 Fossil and renewable energy resources, 2007.....	30
3.1 Energy sector contribution to GDP	54
3.2 Energy exports contribution to trade	54
3.3 Energy imports contribution to trade.....	54
3.4 Fossil and renewable energy resources, 2007.....	55
5.1 Key energy efficiency and conservation players.....	78
5.2 Sectoral energy efficiency and conservation technical potential	83
5.3 Key industrial energy intensities.....	83
6.1 Potential and installed capacity of renewable energy options	92
6.2 Biofuel utilisation and potential market in 2015.....	97
7.1 Estimated oil reserves in Indonesia, at 1 Jan.....	106
7.2 Estimated gas reserves in Indonesia, at 1 Jan.....	108
7.3 Exploration and production trends.....	109
7.4 3D Seismic gathered in Indonesia.....	115
7.5 Number of exploration wells.....	116

8.1	Domestic petroleum products sales	124
8.2	Domestic petroleum products sales by sector, 2004 vs. 2006.	125
8.3	Domestic petroleum products imports vs. exports	126
8.4	Oil refinery capacity	127
8.5	Subsidised fuel price changes, 2004-2008	131
9.1	Gas transmission pipeline ownership	143
9.2	Investment plan for gas pipeline infrastructure	143
9.3	Domestic gas vs. gas export.	144
9.4	Domestic gas demand vs. export gas demand, 2006.	145
10.1	Coal resources and reserves, 2007	156
10.2	Coal producing companies operating under CCoWs.	159
10.3	Coal production by province, 2006	162
10.4	Coal production by contract type	162
10.5	Coal production by major producers	164
10.6	Major coal export destinations.	165
10.7	Coal exports by markets.	166
10.8	Coal exports by major exporters	166
10.9	Coal exports forecast, 2007-2025.	167
10.10	Domestic coal sales.	167
10.11	Coal consumption by end-user industry.	168
11.1	Electricity capacity by fuel, 2007	172
11.2	Power plant operating performance	174
11.3	National Electricity General Plan, 2006-2026	175
11.4	Installed capacity by type.	178
11.5	Estimated investment requirements to 2020	180
11.6	Electrification rate by island, 2006	187
13.1	Funding for MEMR R&D centres, 2007	213
13.2	Examples of international energy R&D co-operation	217

List of figures

1.	The Republic of Indonesia.	22
2.1	Organisation of the Ministry of Energy and Mineral Resources (MEMR)	37
2.2	Organisation of the Secretariat General, MEMR	38
2.3	Organisation of the Directorate General of Oil and Gas, MEMR.	39
2.4	Organisation of the Directorate General of Electricity and Energy Utilisation, MEMR	39

2.5	Organisation of the Directorate General of Minerals, Coal and Geothermal, MEMR.	41
6.1	National primary energy supply in year 2025	91
6.2	Roadmap for biofuel development	96
6.3	Roadmap of geothermal development	100
7.1	Sedimentary basins of Indonesia.	107
7.2	Revenues flow in a Production Sharing Contract	118
7.3	Revenues flow in a Technical Assistance Contract	119
8.1	Downstream oil and gas market structure.	123
8.2	Downstream oil and gas market regulation and supervision.	124
8.3	Petroleum refineries in Indonesia.	128
8.4	Domestic fuel distribution.	135
9.1	Master plan of Indonesia's natural gas pipeline network	142
9.2	Downstream oil and gas market structure.	147
9.3	Downstream oil and gas market regulation and supervision.	147
10.1	National Coal Policy	154
10.2	Distribution of coal resource.	157
10.3	Coal terminals and capacity (maximum tonnes/day)	163
11.1	Main power plants and domestic transmission lines, 2007	173
11.2	Electricity generation by source.	174
11.3	Planned fuel mix share (Java-Madura-Bali system) under the Fast Track Programme.	181
12.1	Organisation of the National Atomic Energy Agency	196
12.2	Organisation of the Nuclear Energy Regulatory Agency.	198
13.1	Energy research and development institutions and relationships in Indonesia.	206
13.2	Organisation of the Agency for Energy Research and Development, MEMR	208
13.3	Organisation of the Agency of Geology, MEMR	210
13.4	Organisation of the Agency for Education and Training, MEMR ...	215
