

# TABLE OF CONTENTS

|          |  |   |
|----------|--|---|
| <b>1</b> | <b>EXECUTIVE SUMMARY AND KEY RECOMMENDATIONS</b> . . . . . | 7 |
|          | Executive Summary . . . . .                                | 7 |
|          | Key Recommendations . . . . .                              | 9 |

## **PART I: POLICY ANALYSIS**

|          |  |    |
|----------|--|----|
| <b>2</b> | <b>GENERAL ENERGY POLICY</b> . . . . .                   | 13 |
|          | Country Overview . . . . .                               | 13 |
|          | The Economy . . . . .                                    | 13 |
|          | Energy Supply and Demand . . . . .                       | 14 |
|          | Key Energy Policies . . . . .                            | 17 |
|          | Security of Supply . . . . .                             | 19 |
|          | Energy Institutions . . . . .                            | 20 |
|          | Energy Market Reform . . . . .                           | 21 |
|          | Energy Taxes and Subsidies . . . . .                     | 23 |
|          | Energy Prices . . . . .                                  | 23 |
|          | Critique . . . . .                                       | 23 |
|          | Recommendations . . . . .                                | 27 |
| <b>3</b> | <b>CLIMATE CHANGE</b> . . . . .                          | 29 |
|          | Overview . . . . .                                       | 29 |
|          | CO <sub>2</sub> Emissions from Fuel Combustion . . . . . | 31 |
|          | Policies and Measures . . . . .                          | 33 |
|          | Critique . . . . .                                       | 38 |
|          | Recommendations . . . . .                                | 40 |
| <b>4</b> | <b>ENERGY EFFICIENCY</b> . . . . .                       | 43 |
|          | Overview . . . . .                                       | 43 |
|          | Institutional Arrangements . . . . .                     | 44 |
|          | Policies and Measures . . . . .                          | 45 |
|          | Sectoral Policies . . . . .                              | 52 |
|          | Other Energy Efficiency Measures . . . . .               | 58 |
|          | Critique . . . . .                                       | 59 |
|          | Recommendations . . . . .                                | 60 |

## **PART II: SECTOR ANALYSIS**

|          |                                     |    |
|----------|-------------------------------------|----|
| <b>5</b> | <b>OIL AND COAL</b> . . . . .       | 67 |
|          | Overview . . . . .                  | 67 |
|          | Oil Demand and Trade . . . . .      | 67 |
|          | Oil Supply Infrastructure . . . . . | 68 |

|                                    |   |            |
|------------------------------------|---|------------|
|                                    | Downstream Market.....                                    | 71         |
|                                    | Emergency Response Policy and Emergency Organisation..... | 74         |
|                                    | Emergency Oil Reserves.....                               | 76         |
|                                    | Coal.....   | 80         |
|                                    | Critique.....   | 82         |
|                                    | Recommendations.....                                      | 85         |
| <b>6</b>                           | <b>NATURAL GAS</b> .....                                  | <b>87</b>  |
|                                    | Overview.....   | 87         |
|                                    | Industry Structure.....                                   | 90         |
|                                    | Market Reform.....  | 97         |
|                                    | Retail Market.....  | 99         |
|                                    | Critique.....   | 103        |
|                                    | Recommendations.....                                      | 105        |
| <b>7</b>                           | <b>ELECTRICITY</b> .....                                  | <b>107</b> |
|                                    | Overview.....   | 107        |
|                                    | Supply and Demand.....                                    | 107        |
|                                    | Industry Structure.....                                   | 108        |
