

Duncan Millard

Head, Energy Data Centre International Energy Agency, Paris

Duncan Millard became Chief Statistician and the Head of the IEA Energy Data Centre on 1st March 2015 and in January 2016 also took on the role of Head of Training and Capacity building.

Prior to joining the IEA he was Chief Statistician for the UK Department of Energy and Climate Change (DECC), Chief Statistician of Jersey and held a number of policy and economic roles on energy in the UK civil service. He has been an active participant in international work on statistics for many years with the IEA, Eurostat, JODI and by leading cross department international statistics work in the UK, where he was also heavily involved in capacity building including being a co-creator of the DECC School. Under his leadership DECC received three Royal Statistical Service awards for Excellence in Official Statistics.
