List of Boxes	40
Executive Summary	43

1	The Context	53
	Highlights	53
	Purpose and Scope of the Study	54
	The Methodological Approach	57
	The Reference Scenario	59
	<i>Geopolitical Developments</i>	61
	<i>Energy Policy Developments in the Middle East and North Africa</i>	61
	<i>International Energy Prices</i>	63
	<i>Demographic Trends</i>	67
	<i>Macroeconomic Trends in the Middle East and North Africa</i>	69
	The Deferred Investment Scenario	76
	The World Alternative Policy Scenario	77
2	Global Energy Trends	79
	Highlights	79
	Energy Demand	80
	<i>Primary Fuel Mix</i>	80
	<i>Regional Demand Trends</i>	86
	Energy Production and Trade	88
	<i>Overview</i>	88
	<i>Oil Supply</i>	89
	<i>Natural Gas Supply</i>	90
	Energy-Related CO ₂ Emissions	92
	Energy Investment	94
	Focus on Oil Refining	96
	<i>Challenges Facing the Global Refining Industry</i>	96
	<i>Refinery Capacity Outlook</i>	98
	<i>Refined Product Trade</i>	101
	<i>Refinery Investment</i>	102
3	Energy Trends in the Middle East and North Africa	105
	Highlights	105
	MENA Domestic Energy Demand	106
	<i>Primary Fuel Mix</i>	107

	<i>Demand Trends by Sector</i>	109
	Crude Oil Production and Trade	112
	Natural Gas Production and Trade	113
	Investment Needs	113
	Hydrocarbon Revenues	114
	Energy-Related CO ₂ Emissions	117
4	Oil Outlook in the Middle East and North Africa	119
	Highlights	119
	Oil Demand	120
	Oil Resources	123
	<i>Estimates of Proven Reserves</i>	123
	<i>Resources and Production Potential</i>	126
	<i>Petroleum Geology and Reservoir Characteristics</i>	129
	<i>Reserves Growth and Oil Discoveries</i>	132
	<i>Production Costs</i>	133
	<i>Technology Deployment</i>	136
	Oil Production	137
	<i>Crude Oil</i>	137
	<i>Summary of Country-by-Country Trends</i>	146
	Oil Refining	151
	Oil Exports	153
	Investment and Financing	156
	<i>Projected Investment Needs</i>	156
	<i>Sources of Finance and Investment Uncertainty</i>	160
5	Natural Gas Outlook in the Middle East and North Africa	167
	Highlights	167
	Natural Gas Demand	168
	Natural Gas Supply	172
	<i>Natural Gas Reserves and Resources</i>	172
	<i>Natural Gas Production</i>	175
	<i>Natural Gas Trade</i>	177
	Investment and Financing	182
6	Electricity and Water Outlook in the Middle East and North Africa	187
	Highlights	187
	Introduction	188
	Electricity Demand	188
	Electricity Supply	195
	<i>Power Generation Capacity</i>	195
	<i>Power Plant Economics</i>	199

<i>Electricity Generation Mix</i>	202
Electricity Investment	207
Water Desalination	216
<i>Overview</i>	216
<i>MENA Water Demand and Supply</i>	219
<i>Water Desalination Production and Capacity</i>	224
<i>Water Desalination Investment Needs and Financing</i>	226

7

Deferred Investment Scenario	227
Highlights	227
Background and Approach	228
<i>Why a Deferred Investment Scenario?</i>	228
<i>What Might Cause Oil and Gas Investment to be Deferred?</i>	229
<i>Methodology and Assumptions</i>	231
Implications for Energy Prices	234
Implications for Energy Demand	236
<i>Global Energy Demand</i>	236
<i>MENA Energy Demand</i>	238
Oil Supply	239
<i>MENA Oil Production</i>	239
<i>MENA Oil Exports</i>	243
<i>Non-MENA Oil Production</i>	244
Gas Supply	245
MENA Oil and Gas Export Revenues	248
MENA Energy Investment	248

8

Implications for World Energy Markets and Government Policy	251
Highlights	251
Introduction	252
MENA's Role in World Energy Supply	253
Policy Issues for MENA Producing Countries	255
<i>Investment and Production Policies</i>	256
<i>Energy Subsidies</i>	259
Policy Issues for Consuming Countries	259
<i>Energy Security</i>	259
<i>Vulnerability to Supply Shocks</i>	261
<i>Implications for Emergency Preparedness</i>	265
<i>Facing the Challenge</i>	267
World Alternative Policy Scenario	268
<i>Comparing the Alternative Policy and Deferred Investment Scenarios</i>	273

Algeria	279
Highlights	279
Overview of the Algerian Energy Sector	280
Political and Economic Situation	281
<i>Political Developments</i>	281
<i>Economic Trends</i>	282
<i>Demographic Trends</i>	283
<i>Energy Policy</i>	283
Energy Demand	284
<i>Primary Energy Mix</i>	284
<i>Sectoral Trends</i>	285
Electricity Supply and Desalinated Water Production	287
<i>Overview</i>	287
<i>Electricity Production</i>	289
<i>Water Production</i>	290
Oil Supply	291
<i>Policy Framework</i>	291
<i>Resources and Reserves</i>	293
<i>Crude Oil Production</i>	295
<i>Oil Refining and GTL</i>	298
<i>Exports</i>	299
Natural Gas Supply	299
<i>Resources and Reserves</i>	299
<i>Gas Production</i>	300
<i>Export Plans and Prospects</i>	302
Energy Investment	303
Deferred Investment Scenario	305
<i>Energy Demand</i>	305
<i>Oil and Gas Production</i>	306
<i>Oil and Gas Exports</i>	307

Egypt	309
Highlights	309
Overview of the Egyptian Energy Sector	310
Political and Economic Situation	311
<i>Political Developments</i>	311
<i>Economic Trends and Developments</i>	311
<i>Energy Policy</i>	314
Energy Demand	315
<i>Primary Energy Mix</i>	315
<i>Sectoral Trends</i>	316
Electricity Supply	319
<i>Overview</i>	319

<i>Electricity Production</i>	321
Oil Supply	321
<i>Resources and Reserves</i>	321
<i>Crude Oil Production</i>	322
<i>Oil Refining</i>	323
<i>Oil Trade</i>	325
Natural Gas Supply	327
<i>Resources and Reserves</i>	327
<i>Gas Production</i>	328
<i>Export Plans and Prospects</i>	329
Energy Investment	330
Deferred Investment Scenario	332
<i>Energy Demand</i>	333
<i>Oil and Gas Production</i>	333
<i>Oil and Gas Trade</i>	333

Iran	335
Highlights	335
Overview of the Iranian Energy Sector	336
Political and Economic Situation	337
<i>Political Developments</i>	337
<i>Economic Trends and Developments</i>	338
<i>Energy Policy</i>	341
Energy Demand	344
<i>Primary Energy Mix</i>	344
<i>Sectoral Trends</i>	347
Electricity Supply	349
<i>Overview</i>	349
<i>Electricity Production</i>	352
Oil Supply	353
<i>Overview</i>	353
<i>Policy Framework</i>	354
<i>Resources and Reserves</i>	355
<i>Crude Oil Production</i>	357
<i>Oil Refining</i>	361
<i>Oil Exports</i>	363
Natural Gas Supply	364
<i>Resources and Reserves</i>	364
<i>Gas Production and Distribution</i>	365
<i>Export Plans and Prospects</i>	368
Energy Investment	369
<i>Oil and Natural Gas</i>	369

<i>Electricity</i>	370
Deferred Investment Scenario	371
<i>Energy Demand</i>	371
<i>Oil Production and Exports</i>	371
<i>Gas Production and Exports</i>	372

12

Iraq	373
Highlights	373
Overview of the Iraqi Energy Sector	374
Political and Economic Situation	374
<i>Political Developments</i>	374
<i>Economic Trends and Developments</i>	376
<i>Energy Policy</i>	379
Energy Demand	379
Electricity Supply	382
<i>Overview</i>	382
<i>Electricity Production</i>	385
Oil Supply	386
<i>Overview</i>	386
<i>Policy Framework</i>	387
<i>Resources and Reserves</i>	388
<i>Crude Oil Production</i>	390
<i>Oil Refining</i>	396
<i>Oil Exports</i>	398
Natural Gas Supply	399
<i>Resources and Reserves</i>	399
<i>Gas Production and Distribution</i>	400
<i>Export Plans and Prospects</i>	401
Energy Investment	402
<i>Overview</i>	402
<i>Oil and Gas Sector</i>	403
<i>Electricity Sector</i>	404
Deferred Investment Scenario	405
<i>Energy Demand</i>	405
<i>Oil and Gas Production</i>	406
<i>Oil and Gas Exports</i>	407

13

Kuwait	409
Highlights	409
Overview of Kuwait's Energy Sector	410
Political, Social and Economic Trends	411
<i>Political and Social Developments</i>	411
<i>Economic Trends and Developments</i>	412

<i>Energy Policy</i>	413
Energy Demand	415
Electricity Supply and Desalinated Water Production	418
<i>Overview</i>	418
<i>Electricity Production</i>	420
<i>Water Production</i>	420
Oil Supply	421
<i>Resources and Reserves</i>	421
<i>Crude Oil Production</i>	423
<i>Oil Refining</i>	426
<i>Oil Exports</i>	426
Natural Gas Supply	428
<i>Gas Reserves</i>	428
<i>Gas Production and Imports</i>	428
<i>Import Plans</i>	429
Energy Investment Needs and Financing	430
Deferred Investment Scenario	431
<i>Energy Demand</i>	431
<i>Oil and Gas Production and Trade</i>	431

14

Libya	433
Highlights	433
Overview of the Libyan Energy Sector	434
Political and Economic Situation	435
<i>Political Developments</i>	435
<i>Economic Trends and Developments</i>	435
<i>Energy Policy</i>	436
Energy Demand	436
<i>Primary Energy Mix</i>	436
<i>Sectoral Trends</i>	437
Electricity Supply and Desalinated Water Production	439
<i>Overview</i>	439
<i>Electricity Production</i>	442
<i>Water Production</i>	442
Oil Supply	443
<i>Overview</i>	443
<i>Policy Framework</i>	444
<i>Crude Oil Production</i>	448
<i>Oil Refining</i>	450
<i>Exports</i>	452
Natural Gas Supply	453
<i>Resources and Reserves</i>	453

<i>Production and Distribution</i>	453
<i>Exports</i>	455
Investment Needs and Financing	455
<i>Oil</i>	456
<i>Natural Gas</i>	457
<i>Electricity</i>	457
Deferred Investment Scenario	457
<i>Energy Demand</i>	458
<i>Oil and Gas Production</i>	458
<i>Oil and Gas Exports</i>	458

15

Qatar	459
Highlights	459
Overview of the Qatari Energy Sector	460
Political and Economic Situation	461
<i>Political Developments</i>	461
<i>Economic Developments</i>	462
<i>Energy Policy</i>	463
Energy Demand	464
<i>Primary Fuel Mix</i>	464
<i>Sectoral Trends</i>	465
Electricity Supply and Desalinated Water Production	467
<i>Overview</i>	467
<i>Electricity Production</i>	468
<i>Water Production</i>	469
Oil Supply	470
<i>Overview</i>	470
<i>Resources and Reserves</i>	470
<i>Crude Oil Production</i>	472
<i>Refining</i>	474
<i>Exports</i>	474
Natural Gas Supply	475
<i>Overview</i>	475
<i>Resources and Reserves</i>	475
<i>Production and Distribution</i>	476
<i>Exports</i>	478
Energy Investment	481
<i>Oil and Gas</i>	482
<i>Electricity</i>	482
Deferred Investment Scenario	483
<i>Energy Demand</i>	483
<i>Oil Production and Exports</i>	483

<i>Gas Production and Exports</i>	484
-----------------------------------	-----

16

Saudi Arabia	485
Highlights	485
Overview of the Saudi Energy Sector	486
Political and Economic Situation	486
<i>Political Developments</i>	486
<i>Economic Trends</i>	487
Energy Demand	492
<i>Primary Energy Mix</i>	492
<i>Sectoral Trends</i>	494
Electricity Supply and Desalinated Water Production	498
<i>Overview</i>	498
<i>Electricity Production</i>	500
<i>Water Production</i>	501
Oil Supply	502
<i>Overview</i>	502
<i>Policy Framework</i>	504
<i>Resources and Reserves</i>	505
<i>Crude Oil Production</i>	507
<i>Oil Refining</i>	518
<i>Exports</i>	520
Natural Gas Supply	521
<i>Resources and Reserves</i>	521
<i>Gas Production and Distribution</i>	521
Energy Investment	524
<i>Oil</i>	525
<i>Natural Gas</i>	526
<i>Electricity</i>	526
Deferred Investment Scenario	526
<i>Energy Demand</i>	527
<i>Oil Production and Exports</i>	528
<i>Natural Gas Production</i>	529

17

United Arab Emirates	531
Highlights	531
Overview of the UAE's Energy Sector	532
Political and Economic Situation	533
<i>Political Developments</i>	533
<i>Economic and Demographic Trends</i>	533
<i>Energy Policy</i>	536
Energy Demand	536
<i>Primary Energy Mix</i>	536

<i>Sectoral Trends</i>	539
Electricity Supply and Desalinated Water Production	540
<i>Overview</i>	540
<i>Electricity Production</i>	543
<i>Water Production</i>	543
Oil Supply	544
<i>Policy Framework</i>	544
<i>Resources and Reserves</i>	545
<i>Crude Oil Production</i>	545
<i>Oil Refining</i>	550
<i>Oil Exports</i>	551
Natural Gas Supply	551
<i>Resources and Reserves</i>	551
<i>Gas Production and Distribution</i>	552
<i>Gas Exports</i>	552
Energy Investment	553
Deferred Investment Scenario	554
<i>Background</i>	554
<i>Oil and Gas Production</i>	555
<i>Oil and Gas Exports</i>	556

Annexes

Annex A Tables for Reference Scenario Projections	557
Annex B Definitions, Abbreviations and Acronyms	607
Annex C References	617

List of Figures

Chapter 1: The Context

1.1	MENA Share in World Oil and Gas Supply, 2004	55
1.2	Share of MENA in World Proven Oil and Gas Reserves, End-2004	56
1.3	Average IEA Crude Oil Import Price in the Reference Scenario	65
1.4	Natural Gas Price Assumptions	66
1.5	Population of MENA Countries	68
1.6	Population of Persian Gulf Countries by Category, 2002	69
1.7	Per Capita GDP and Proven Oil Reserves in MENA, 2004	70
1.8	Unemployment Rates in Selected MENA Countries, End-2004	71
1.9	Per Capita Income in MENA Countries in the Reference Scenario	76

Chapter 2: Global Energy Trends

2.1	World Primary Energy Demand by Fuel in the Reference Scenario	81
2.2	Incremental Global Oil Demand, 2004-2030	84
2.3	Fuel Shares in World Primary Energy Demand	85
2.4	Regional Shares in World Primary Energy Demand in the Reference Scenario	87
2.5	Share of Inter-Regional Trade in World Primary Oil and Gas Demand in the Reference Scenario	89
2.6	Natural Gas Production by Region in the Reference Scenario	91
2.7	Net Natural Gas Imports by Major Region in the Reference Scenario	92
2.8	Energy-Related CO ₂ Emissions by Region in the Reference Scenario	93
2.9	Cumulative Energy Investment in the Reference Scenario, 2004-2030	95
2.10	World Crude Oil Distillation Capacity and Oil Demand by Region, 2004	96
2.11	World Crude Oil Distillation Capacity and Refined Product Demand in the Reference Scenario	97
2.12	Global Refining Capacity Additions in the Reference Scenario, 2004-2030	100
2.13	Cumulative Refinery Investment in the Reference Scenario, 2004-2030	102
2.14	Global Refinery Investment by Decade in the Reference Scenario	103

Chapter 3: Energy Trends in the Middle East and North Africa

3.1	MENA Primary Energy Demand by Fuel	108
3.2	MENA Primary Energy Intensity	109
3.3	Energy Demand in the Petrochemical Sector in the Middle East	112

3.4	Cumulative MENA Energy Investment, 2004-2030	114
3.5	MENA Oil and Natural Gas Export Revenues, Share by Country	115
3.6	MENA Oil Export Revenues	116
3.7	MENA Oil Export Revenues per Capita	116

Chapter 4: Oil Outlook in the Middle East and North Africa

4.1	MENA GDP and Oil Demand Average Annual Growth Rate	120
4.2	Primary Oil Intensity	121
4.3	Car Ownership Rates, 2002	122
4.4	Leading Countries for Proven Oil Reserves	124
4.5	MENA Proven Oil Reserves, 1984-2004	125
4.6	Oil Reserves and Production in MENA Countries, 2004	127
4.7	Ratio of Ultimately Recoverable Oil and NGL Resources and Proven Reserves to Production Ratios in MENA Countries, End-2004	128
4.8	MENA Oilfield Discoveries, 1960-2002	133
4.9	Indicative Crude Oil Production Costs in Selected MENA Countries and non-MENA Regions	134
4.10	Average Exploration and Development Costs versus Proven Oil Reserves in MENA Countries	135
4.11	MENA Crude Oil Production by Country in the Reference Scenario	138
4.12	Incremental MENA Crude Oil Production and Net Exports in the Reference Scenario, 2004-2010	139
4.13	MENA Crude Oil Production and Spare Maximum Sustainable Capacity	139
4.14	MENA Crude Oil Production by Size of Field	142
4.15	MENA Crude Oil Production by Category in the Reference Scenario	142
4.16	MENA Average Crude Oil Quality	145
4.17	MENA Crude Oil Production by Country in the Reference Scenario	148
4.18	Additions to MENA Crude Oil Distillation Capacity in the Reference Scenario	152
4.19	Oil Exports to Net Importing Regions from MENA and Non-MENA Countries in the Reference Scenario	154
4.20	MENA Oil Exports by Country in the Reference Scenario	155
4.21	MENA Oil Investment in the Reference Scenario	157
4.22	Cumulative MENA Oil Investment by Country in the Reference Scenario, 2004-2030	158
4.23	MENA Refinery Investment by Country in the Reference Scenario, 2004-2030	159

Chapter 5: Natural Gas Market Outlook in the Middle East and North Africa

5.1	MENA Demand for Natural Gas by Sector in the Reference Scenario	169
5.2	Share of Natural Gas in MENA Power and Water Production in the Reference Scenario	170
5.3	MENA Proven Natural Gas Reserves	174
5.4	MENA Natural Gas Production by Country in the Reference Scenario	175
5.5	MENA Natural Gas Production by Field in the Reference Scenario	177
5.6	MENA Natural Gas Exports by Destination, 2010 and 2030	180
5.7	MENA Net Natural Gas Exports in the Reference Scenario	181
5.8	Cumulative Investment in Natural Gas Supply Infrastructure in MENA Countries in the Reference Scenario, 2004-2030	183

Chapter 6: Electricity and Water Outlook in the Middle East and North Africa

6.1	Per Capita Electricity Demand in MENA Countries and the OECD, 2003	189
6.2	Electricity Losses in MENA and the OECD, 2003	189
6.3	Average Annual Growth Rates in Electricity Demand, 1998-2003	191
6.4	Residential Electricity Prices in MENA and the OECD, 2003	192
6.5	Electricity Demand in MENA Countries	193
6.6	Comparison of Chiller Efficiency	194
6.7	MENA Power-Generation Capacity Additions by Country, 2004-2030	195
6.8	MENA Installed Power-Generation Capacity by Country, 2003	196
6.9	Load Factors in MENA, 2003	196
6.10	Natural Gas Use in Power Generation and Role of CCGTs in MENA and the OECD, 2003	197
6.11	Average MENA Electricity Generation Costs by Technology	199
6.12	Cost of Electricity Generation Based on Fuel-Export Values	200
6.13	CCGT and OCGT Electricity Generating Costs	201
6.14	Additional Investment for CCGT versus the Value of Fuel Savings	201
6.15	MENA Electricity Generation Fuel Mix	204
6.16	Share of Natural Gas in MENA Electricity Generation, 2003	204
6.17	Solar Thermal and CCGT Electricity Generating Costs in 2030	207
6.18	MENA Average Annual Electricity Investment	208
6.19	MENA Cumulative Electricity Investment by Country, 2004-2030	208

6.20	Global per Capita Renewable Water Resources	217
6.21	Water Demand in Saudi Arabia, Kuwait, the UAE, Qatar, Algeria and Libya	223
6.22	Share of CWP in Power-Generation Capacity Additions in Selected MENA Countries, 2004-2030	225

Chapter 7: Deferred Investment Scenario

7.1	Modelling Approach of the Deferred Investment Scenario	234
7.2	Average IEA Crude Oil Import Price in the Deferred Investment and Reference Scenarios	235
7.3	Change in MENA Primary Energy Demand in the Deferred Investment Scenario Compared with the Reference Scenario	238
7.4	Change in MENA Primary Energy Demand in the Deferred Investment Scenario Compared with the Reference Scenario by Country, 2030	239
7.5	MENA Crude Oil Production in the Reference and Deferred Investment Scenarios	240
7.6	MENA Crude Oil Production in the Deferred Investment Scenario	242
7.7	Change in MENA Oil Product Demand and Distillation Capacity in 2030 in the Deferred Investment Scenario Compared with the Reference Scenario	243
7.8	MENA Net Oil Exports in the Reference and Deferred Investment Scenarios	244
7.9	World Crude Oil Production in the Reference and Deferred Investment Scenarios	245
7.10	Change in Natural Gas Demand in 2030 in the Deferred Investment Scenario versus the Reference Scenario	247
7.11	MENA Natural Gas Exports in the Reference and Deferred Investment Scenarios	247
7.12	Cumulative Oil and Gas Investment in MENA Countries in the Reference and Deferred Investment Scenarios, 2004-2030	249

Chapter 8: Implications for World Energy Markets and Government Policy

8.1	Share of MENA in Global Oil Supply	253
8.2	Spare Crude Oil Production Capacity Worldwide and Average IEA Crude Oil Import Price	258
8.3	Oil Export Flows from MENA and Major Strategic Maritime Channels	263
8.4	Volume of Oil Stocks Needed to Ensure 90 Days of Net Imports in OECD Regions in the Reference Scenario	266
8.5	Indicative Cumulative Cost of Oil Storage, 2004-2030	266

8.6	Incremental World Primary Fossil Fuel Demand in the Alternative Policy Scenario and Savings Relative to the Reference Scenario, 2003-2030	269
8.7	Global Energy-Related CO ₂ Emissions in the Reference and Alternative Policy Scenarios	273
8.8	Change in Primary Oil and Gas Demand by Region and Scenario in 2030 Compared with the Reference Scenario	274
8.9	Average Cost of Oil by Scenario, 2004-2030	275
8.10	Cumulative MENA Oil and Gas Export Revenues, 2005-2030	276

Chapter 9: Algeria

9.1	Incremental Primary Oil and Gas Demand in Algeria by Sector, 2003-2030	285
9.2	Algeria's Power Sector Capacity Additions, 1971-2002	287
9.3	Comparison of Electricity Sale Prices in Algeria and OECD Europe	288
9.4	Major Oil and Gas Fields and Energy Infrastructure in Algeria	294
9.5	Algeria's Crude Oil Production by Source in the Reference Scenario	297
9.6	Algeria's Oil Balance in the Reference Scenario	299
9.7	Algeria's Natural Gas Production in the Reference Scenario	301
9.8	Algeria's Natural Gas Balance in the Reference Scenario	302
9.9	Algeria's Cumulative Energy Investment by Sector in the Reference Scenario	303
9.10	Algeria's Oil Investment in the Reference Scenario	304
9.11	Algeria's Natural Gas Investment in the Reference Scenario	305
9.12	Algeria's Primary Energy Demand in the Reference and Deferred Investment Scenarios	306
9.13	Algeria's Natural Gas Balance in the Reference and Deferred Investment Scenarios	307

Chapter 10: Egypt

10.1	Social Subsidies in Egypt, 2004	313
10.2	Egypt's Total Primary Energy Demand by Fuel	316
10.3	Egypt's Natural Gas Production and Shares of Oil and Gas in Electricity Generation	319
10.4	Egypt's Oil Production by Source	323
10.5	Main Oil and Gas Fields and Energy Infrastructure in Egypt	324
10.6	Egypt's Oil Balance	326
10.7	Tonnage of Vessels Passing through the Suez Canal and Suez Canal Receipts	327
10.8	Egypt's Proven Reserves of Natural Gas	328
10.9	Egypt's Natural Gas Production by Source	329
10.10	Egypt's Natural Gas Balance	330
10.11	Egypt's Energy Investment	331

10.12	Egypt's Natural Gas Balance in the Reference and Deferred Investment Scenarios	334
-------	--	-----

Chapter 11: Iran

11.1	Energy Subsidies by Sector in Iran, 2003	343
11.2	Energy Consumption per Unit of Output of New Equipment in Iran and the OECD	344
11.3	Iran's Primary Energy Demand	345
11.4	Iran's Primary Energy Demand in the Reference Scenario and the Subsidy Removal Case	346
11.5	Iran's Primary Oil and Gas Consumption by Sector	347
11.6	Iran's Electricity Generation by Technology, 2003	350
11.7	Main Oil and Gas Fields and Energy Infrastructure in Iran	356
11.8	Iran's Crude Oil Production by Source in the Reference Scenario	360
11.9	Refined Product Surpluses in Iranian Refining, 2003	361
11.10	Iran's Oil Balance in the Reference Scenario	363
11.11	Economic Value of Gas According to Use in Iran	365
11.12	Iran's Natural Gas Production by Source in the Reference Scenario	366
11.13	Iran's Natural Gas Balance in the Reference Scenario	368
11.14	Iran's Oil and Natural Gas Investment in the Reference Scenario	369
11.15	Iran's Natural Gas Balance in the Reference and Deferred Investment Scenarios	372

Chapter 12: Iraq

12.1	Iraq's Primary Energy Demand by Fuel in the Reference Scenario	381
12.2	Energy Intensity Indicators in Iraq in the Reference Scenario	382
12.3	Power-Generation Capacity Additions in Iraq	384
12.4	Iraq's Oil and Gas Resources and Infrastructure	389
12.5	Iraq's Oil Production by Source in the Reference Scenario	395
12.6	Iraq's Oil Balance in the Reference Scenario	398
12.7	Iraq's Natural Gas Balance in the Reference Scenario	401
12.8	Iraq's Energy Investment in the Reference Scenario	402
12.9	Iraq's Oil Investment in the Reference Scenario	403
12.10	Iraq's Cumulative Electricity Investment, 2004-2030	404
12.11	Iraq's Total Primary Energy Demand in the Reference and Deferred Investment Scenarios	405
12.12	Iraq's Oil Production by Source in the Deferred Investment Scenarios	406
12.13	Iraq's Oil Balance in the Reference and Deferred Investment Scenarios	407

Chapter 13: Kuwait

13.1	Kuwait's Total Primary Energy Demand	416
------	--------------------------------------	-----

13.2	Energy Intensity Indicators in Kuwait	417
13.3	Power Sector Development in Kuwait	419
13.4	Kuwait's Oil and Gas Resources and Infrastructure	424
13.5	Kuwait's Crude Oil Production by Source in the Reference Scenario	425
13.6	Kuwait's Oil Balance	427
13.7	Kuwait's Natural Gas Balance	429
13.8	Kuwait's Oil Balance in the Reference and Deferred Investment Scenarios	432

Chapter 14: Libya

14.1	Libya's Primary Energy Mix	437
14.2	Final Energy Consumption in Libya	438
14.3	Power-Generation Capacity Additions in Libya	440
14.4	Main Oil and Gas Fields and Energy Infrastructure in Libya	446
14.5	Libya's Crude Oil Production by Source in the Reference Scenario	450
14.6	Oil Product Output and Oil Demand in Libya in the Reference Scenario	452
14.7	Libya's Natural Gas Production in the Reference Scenario	454
14.8	Libya's Annual Oil Investment and Oil Production in the Reference Scenario	456

Chapter 15: Qatar

15.1	Shares of Oil and Gas in GDP in Qatar	463
15.2	Qatar's Total Primary Energy Demand by Sector	465
15.3	Qatar's Oil Balance in the Reference Scenario	470
15.4	Main Oil and Gas Infrastructure in Qatar	471
15.5	Qatar's Crude Oil Production by Source in the Reference Scenario	474
15.6	Qatar's Natural Gas Balance in the Reference Scenario	475
15.7	Qatar's Natural Gas Production in the Reference Scenario	477
15.8	Qatar's LNG Capacity and Projected Exports in the Reference Scenario	480
15.9	Qatar's Energy Investment by Sector in the Reference Scenario	482
15.10	Qatar's Natural Gas Balance in the Reference and Deferred Investment Scenarios	484

Chapter 16: Saudi Arabia

16.1	Share of Oil in GDP and Exports by Value in Saudi Arabia	488
16.2	Saudi Arabia's Population and GDP Per Capita in PPPs	491
16.3	Shares of Oil and Natural Gas in Primary Energy Demand in Saudi Arabia in the Reference Scenario	493
16.4	Primary Energy Intensity and Per Capita Energy Use in Saudi Arabia in the Reference Scenario	493
16.5	Total Final Energy Consumption by Sector in Saudi Arabia	494
16.6	Transport Energy Consumption and GDP in Saudi Arabia	497

16.7	Electricity-Only and CWP Capacity Additions in Saudi Arabia	500
16.8	Oil and Gas Infrastructure in Saudi Arabia	506
16.9	Peripheral Water Flooding in a Simple Anticline Oil Reservoir Structure	514
16.10	Saudi Arabia's Crude Oil Production by Source in the Reference Scenario	518
16.11	Saudi Arabia's Oil Balance in the Reference Scenario	520
16.12	Natural Gas Supply and Share of Primary Energy Demand in Saudi Arabia in the Reference Scenario	522
16.13	Saudi Arabia's Oil and Gas Investment in the Reference Scenario	526
16.14	Saudi Arabia's Primary Energy Demand in the Reference and Deferred Investment Scenarios	527
16.15	Saudi Arabia's Oil Production by Source in the Deferred Investment Scenario	528
16.16	Saudi Arabia's Oil Balance in the Reference and Deferred Investment Scenarios	529

Chapter 17: United Arab Emirates

17.1	Share of GDP by Sector in the UAE	534
17.2	UAE's Primary Energy Demand by Fuel in the Reference Scenario	537
17.3	UAE's Installed Power Generating Capacity, End-2003	540
17.4	Electricity Tariffs in Abu Dhabi	542
17.5	UAE's Oil and Gas Resources and Supply Infrastructure	547
17.6	UAE's Crude Oil Production by Source in the Reference Scenario	550
17.7	UAE's Gas Balance in the Reference Scenario	553
17.8	UAE's Energy Investment in the Reference Scenario	554
17.9	UAE's Crude Oil Production in the Deferred Investment Scenario	555
17.10	UAE's Oil and Gas Net Exports in the Reference and Deferred Investment Scenarios	556

List of Tables

Chapter 1: The Context

1.1	Fossil-Fuel Price Assumptions in the Reference Scenario	64
1.2	Population Growth Assumptions	67
1.3	Human Development Indicators in MENA Countries, 2003	72
1.4	MENA GDP Growth Assumptions in the Reference Scenario	75

Chapter 2: Global Energy Trends

2.1	World Primary Energy Demand in the Reference Scenario	82
2.2	World Oil Demand in the Reference Scenario	83
2.3	World Natural Gas Demand in the Reference Scenario	84
2.4	World Oil Production in the Reference Scenario	90

2.5	Energy-Related CO ₂ Emissions	93
2.6	Global Crude Oil Distillation Capacity in the Reference Scenario	98
2.7	Oil Product Supply Shares by Source in the Reference Scenario	100
2.8	Cumulative Refinery Investment in the Reference Scenario, 2004-2030	103

Chapter 3: Energy Trends in the Middle East and North Africa

3.1	MENA Key Energy Indicators	106
3.2	MENA Primary Energy Demand by Country	107
3.3	MENA Energy-Related CO ₂ Emissions	117

Chapter 4: Oil Outlook in the Middle East and North Africa

4.1	MENA Oil Demand	121
4.2	Estimates of Ultimately Recoverable Oil and NGL Resources	126
4.3	MENA Giant and Super-Giant Oilfields, 2004	141
4.4	MENA Crude Oil Production Outlook in the Reference Scenario	143
4.5	Other Oil Producers in MENA	150
4.6	MENA Crude Oil Distillation Capacity in the Reference Scenario	151
4.7	MENA Net Oil Exports in the Reference Scenario	154
4.8	MENA Net Crude Oil Distillation Capacity Additions and Total Refinery Investment Needs in the Reference Scenario, 2004-2030	160
4.9	Licensing and Fiscal Terms in MENA Countries	164

Chapter 5: Natural Gas Outlook in the Middle East and North Africa

5.1	MENA Primary Natural Gas Demand in the Reference Scenario	168
5.2	MENA Proven Natural Gas Reserves by Country	173
5.3	Estimates of Ultimately Recoverable Natural Gas Resources in MENA	174
5.4	MENA Natural Gas Production in the Reference Scenario	176
5.5	MENA LNG Existing and Planned Capacity	179
5.6	Net Exports as a Share of Natural Gas Production by MENA Country in the Reference Scenario	181
5.7	Sovereign Ratings of MENA Countries, July 2005	184

Chapter 6: Electricity and Water Outlook in the Middle East and North Africa

6.1	MENA Electrification Rates, 2002	188
6.2	MENA Capacity Additions by Fuel, 2004-2030	198
6.3	Shares of Oil and Gas in Electricity Generation	203
6.4	MENA Capacity Additions and Investment, 2004-2030	209
6.5	Main Electricity Suppliers in MENA Countries	212

6.6	Global Water Desalination Capacity, 2003	218
6.7	Capital Costs for Desalination Processes	218
6.8	Average Water Tariffs in Selected Countries	221
6.9	Water Demand and Desalination Capacity in Selected MENA Countries, 2003	222
6.10	Projected Desalination Capacity in Selected MENA Countries	224
6.11	Energy Use for Water Desalination in Selected MENA Countries	226
6.12	Cumulative Investment in Water Desalination in Selected MENA Countries	226

Chapter 7: Deferred Investment Scenario

7.1	Cumulative Upstream Oil Investment in the Reference and Deferred Investment Scenarios, 2004-2030	232
7.2	Fossil-Fuel Prices in the Deferred Investment Scenario	235
7.3	World Primary Energy Demand in the Deferred Investment and Reference Scenarios, 2030	237
7.4	MENA Crude Oil Production by Country in the Deferred Investment Scenario	241
7.5	World Oil Production by Country in the Deferred Investment Scenario	245
7.6	MENA Natural Gas Production by Country in the Deferred Investment Scenario	246

Chapter 8: Implications for World Energy Markets and Government Policy

8.1	Dependence on Oil Imports in Net Importing Regions	254
8.2	Major Oil Supply Disruptions since 1970	262
8.3	MENA Oil and LNG Export Flows through Major Strategic Maritime Channels	264
8.4	World Primary Energy Demand in the Alternative Policy Scenario	270
8.5	Selected Policies Considered in the Alternative Policy Scenario in the Transport Sector	270
8.6	Share of Oil in Transport Demand in the Reference and Alternative Policy Scenarios	272

Chapter 9: Algeria

9.1	Key Energy Indicators for Algeria	280
9.2	GDP and Population Growth Assumptions for Algeria in the Reference Scenario	282
9.3	Algerian Total Primary Energy Demand in the Reference Scenario	284
9.4	Algeria's Solar Energy Potential	290
9.5	Water and Desalination Capacity Projections for Algeria	291

9.6	Oilfields in Algeria	296
9.7	Algeria's Crude Oil Production in the Reference Scenario	297
9.8	Algerian Oil Refineries	298
9.9	Algeria's Natural Gas Reserves and Production	300

Chapter 10: Egypt

10.1	Key Energy Indicators for Egypt	310
10.2	Human Development Indicators for Egypt, 2003	312
10.3	GDP and Population Growth Rates in Egypt in the Reference Scenario	314
10.4	Egypt's Electric Power Exchanges in 2003/2004	320
10.5	Egypt's Electricity Tariffs by Sector, 2003	320
10.6	Oilfields in Production in Egypt, 2004	323

Chapter 11: Iran

11.1	Key Energy Indicators for Iran	336
11.2	Long-Term Macroeconomic Objectives of the 4th Plan in Iran	338
11.3	Iran's Oil Stabilisation Fund	340
11.4	GDP and Population Growth Rates in Iran in the Reference Scenario	341
11.5	Energy Subsidies by Fuel in Iran, 2003	343
11.6	Electricity Tariffs and Costs in Iran, 2003	351
11.7	Major Oilfields Currently in Production in Iran	358
11.8	Iran's Crude Oil Production in the Reference Scenario	359
11.9	Crude Oil Distillation Capacity in Iran	362
11.10	Proven Natural Gas Reserves and Production in Main Fields in Iran	364
11.11	South Pars Development Plan	367

Chapter 12: Iraq

12.1	Key Energy Indicators for Iraq	374
12.2	Human Development Indicators, 2002	377
12.3	GDP and Population Growth Rates in Iraq in the Reference Scenario	378
12.4	Iraq's Total Primary Energy Demand in the Reference Scenario	380
12.5	Iraq's Installed Power-Generation Capacity	383
12.6	Current Electricity Tariffs in Iraq	385
12.7	Oilfields in Iraq	391
12.8	Major Undeveloped Oilfields in Iraq Earmarked for Development	393
12.9	Iraq's Oil Production in the Reference Scenario	396
12.10	Iraq's Refining Capacity at 1 January 2005	397

Chapter 13: Kuwait

13.1	Key Energy Indicators for Kuwait	410
------	----------------------------------	-----

13.2	GDP and Population Growth Rates in Kuwait in the Reference Scenario	413
13.3	Pre-Qualified Project Kuwait Consortia	415
13.4	Water and Desalination Capacity in Kuwait	421
13.5	Oilfields in Kuwait	422
13.6	Kuwait's Crude Oil Production in the Reference Scenario	425
13.7	Kuwait's Natural Gas Import Proposals	429
Chapter 14: Libya		
14.1	Key Energy Indicators for Libya	434
14.2	Libya's Existing and Planned Electricity Interconnections	441
14.3	Water and Desalination Capacity Projections for Libya	443
14.4	Libya's Crude Oil Production in the Reference Scenario	449
14.5	Current and Planned Crude Oil Distillation Capacity in Libya	451
14.6	Libya's Cumulative Energy Investment	455
Chapter 15: Qatar		
15.1	Key Energy Indicators for Qatar	460
15.2	Qatar's Nominal GDP by Sector	462
15.3	GDP and Population Growth Rates in Qatar in the Reference Scenario	462
15.4	Qatar's Primary Energy Demand in the Reference Scenario	464
15.5	Power Plants in Qatar, 2003	467
15.6	Water Consumption and Desalination Capacity in Qatar	469
15.7	Oilfields in Qatar	472
15.8	Qatar's Crude Oil Production in the Reference Scenario	473
15.9	Planned LNG Export Projects in Qatar	478
15.10	Qatar's Contracted LNG Exports	479
15.11	Planned GTL Projects in Qatar	481
Chapter 16: Saudi Arabia		
16.1	Key Energy Indicators for Saudi Arabia	486
16.2	GDP and Population Growth Rates in Saudi Arabia in the Reference Scenario	491
16.3	Total Primary Energy Demand in Saudi Arabia in the Reference Scenario	492
16.4	Saudi Arabian Petrochemical Plants	495
16.5	SEC's Generating Projects Open to the Private Sector	499
16.6	Saudi Arabia's Water Desalination	502
16.7	Oilfields in Saudi Arabia	508
16.8	Saudi Arabia's Crude Oil Export Streams	511
16.9	Current Upstream Oil Projects in Saudi Arabia	514
16.10	Saudi Arabia's Crude Oil Production in the Reference Scenario	516
16.11	Saudi Arabia's Oil Refineries, at 1 January 2005	519
16.12	Saudi Arabia's Investment Mix	525

Chapter 17: United Arab Emirates

17.1	Key Energy Indicators for the UAE	532
17.2	GDP and Population Growth Rates in the UAE in the Reference Scenario	535
17.3	UAE's Primary Energy Demand in the Reference Scenario	537
17.4	Independent Water and Power Projects in Abu Dhabi, 2004	541
17.5	UAE's Water Consumption and Desalination Capacity	544
17.6	ADNOC's Upstream Operating Subsidiaries, End-2004	544
17.7	Oilfields in the UAE	546
17.8	UAE's Crude Oil Production in the Reference Scenario	549
17.9	UAE's Crude Oil Distillation Capacity, End-2004	550

List of Boxes

Chapter 1: The Context

1.1	The Accuracy and Quality of MENA Energy Data	58
1.2	The World Alternative Policy Scenario	60

Chapter 2: Global Energy Trends

2.1	Summary of World Alternative Policy Scenario Projections	80
2.2	Impact of Refining Capacity Constraints on Crude Oil Prices	99

Chapter 3: Energy Trends in the Middle East and North Africa

3.1	Petrochemicals in the Middle East	111
-----	-----------------------------------	-----

Chapter 4: Oil Outlook in the Middle East and North Africa

4.1	Definition of Oil in the <i>World Energy Outlook</i>	124
4.2	A Guide to Basic Petroleum Geology	130
4.3	When Will World and MENA Oil Production Peak?	140
4.4	Field Production Analysis Methodology	144
4.5	National Oil Companies in MENA Countries	161

Chapter 5: Natural Gas Outlook in the Middle East and North Africa

5.1	Global Prospects for Gas-to-Liquids Technology	171
-----	--	-----

Chapter 6: Electricity and Water Outlook in the Middle East and North Africa

6.1	Network Losses in MENA	190
6.2	Air-conditioning in MENA	194
6.3	Solar Power Prospects in MENA	206
6.4	Regional Interconnections in MENA	210
6.5	Supply and Demand Side Investments in the World Alternative Policy Scenario	215
6.6	Energy Requirements and Economics of Desalination Systems	219

Chapter 8: Implications for World Energy Markets and Government Policy	
8.1 Price-Induced Technological Change	257
Chapter 9: Algeria	
9.1 Prospects for Solar Energy in Algeria	289
Chapter 10: Egypt	
10.1 The Suez Canal	326
Chapter 11: Iran	
11.1 The Fourth Five-Year Development Plan in Iran	338
11.2 The Oil Stabilisation Fund in Iran	339
11.3 Impact on Iran's Energy Markets of Removing Subsidies in 2006	346
Chapter 12: Iraq	
12.1 Iraqi Energy Data Deficiencies	380
Chapter 14: Libya	
14.1 Libya's Exploration and Production Sharing Agreement-Round 4 (EPSA-IV)	445
Chapter 15: Qatar	
15.1 Economic Diversification in Qatar	461
15.2 Qatar's North Field	476
Chapter 16: Saudi Arabia	
16.1 The Ghawar Field	510
16.2 Water Management in a Giant Reservoir	512
16.3 New Export Refinery in Yanbu	519
Chapter 17: United Arab Emirates	
17.1 The UAE's Economic Diversification Policy	535
17.2 The Dolphin Project	538
