

# CCS and Public Participation – Lessons Learned

## IEA International CCS Regulators' Network

**Ian Havercroft**

Carbon Capture Legal Programme

University College London

*i.havercroft@ucl.ac.uk*

# Conference on Public Perception and the Law

- Organised by the Carbon Capture Legal Programme, UCL – in conjunction with Kings' Centre for Risk Management (KCL) – 12th June 2009
- Brought together academics working in the fields of law and risk perception, as well as representatives from industry, governmental organisations and NGOs

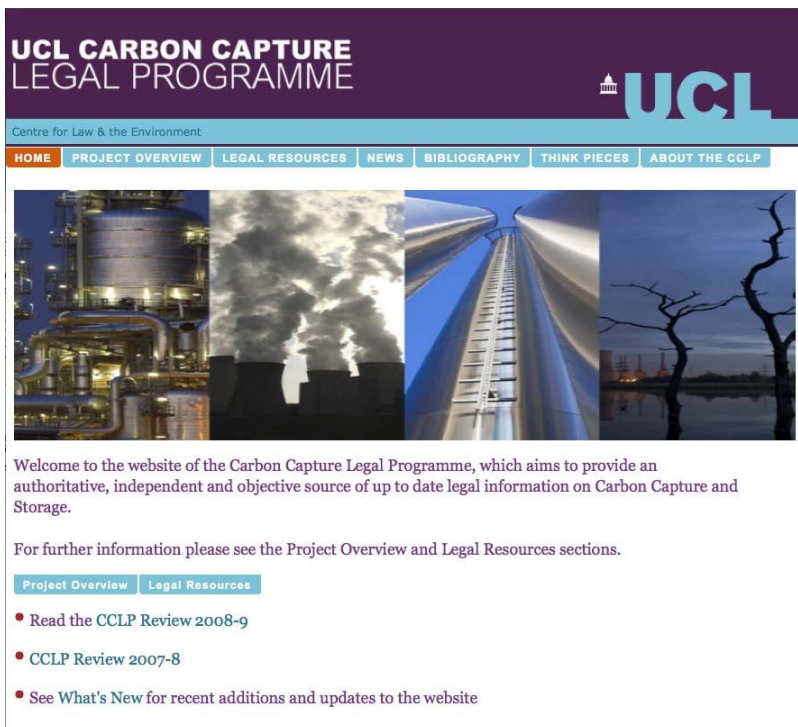

# Significance of public perception

- Potential for learning from previous successes and failures in risk communication
- Public preconceptions with regard to particular industrial activities must be taken into account
- Recognition of the role of media in communicating with the public
- Account must be taken of cultural variations in the public's response

# The Role of Law

- International Conventions
- EU Storage Directive
- Transposition of international and European obligations into domestic law – as well as existing requirements for public consultation

# Carbon Capture Legal Programme

**UCL CARBON CAPTURE LEGAL PROGRAMME**

Centre for Law & the Environment
