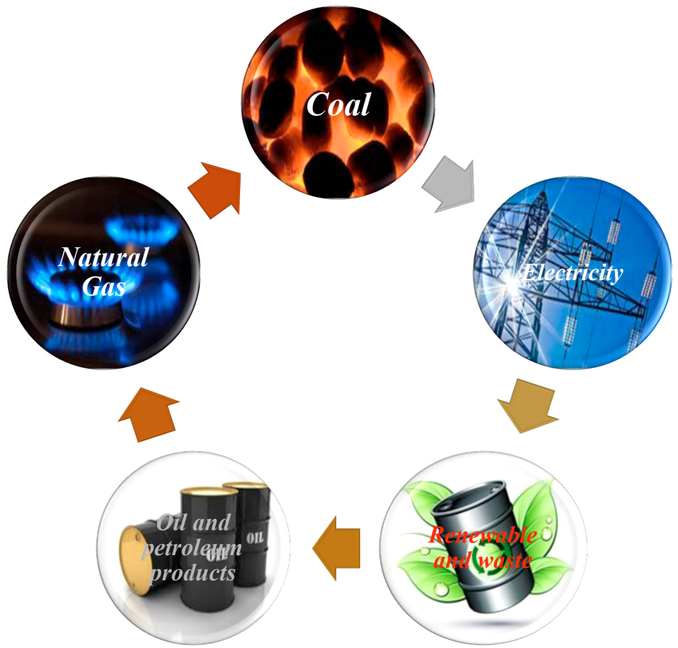
8 persons are working and responsible for energy statistics in GEOSTAT

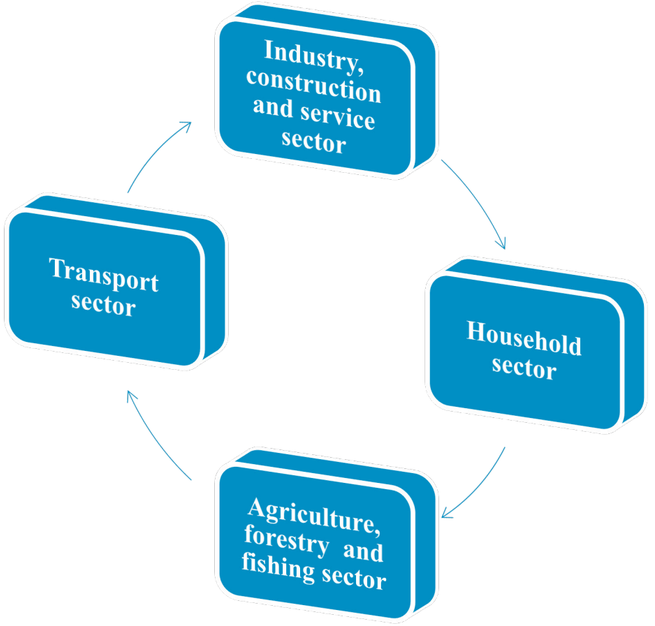
Energy Statistics Data Collection System

Surveys

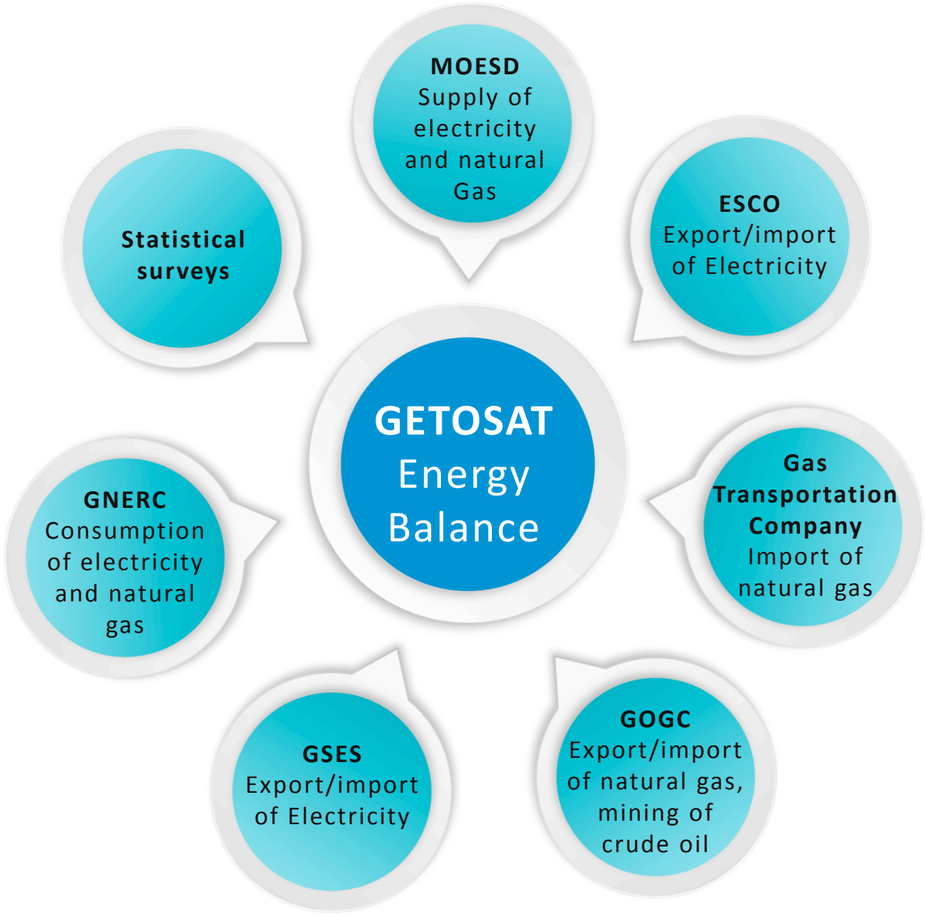
Energy sector



Final Consumers

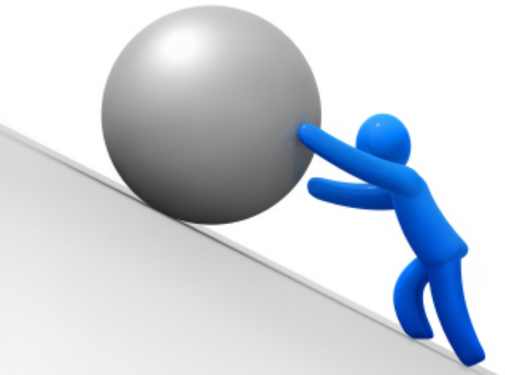


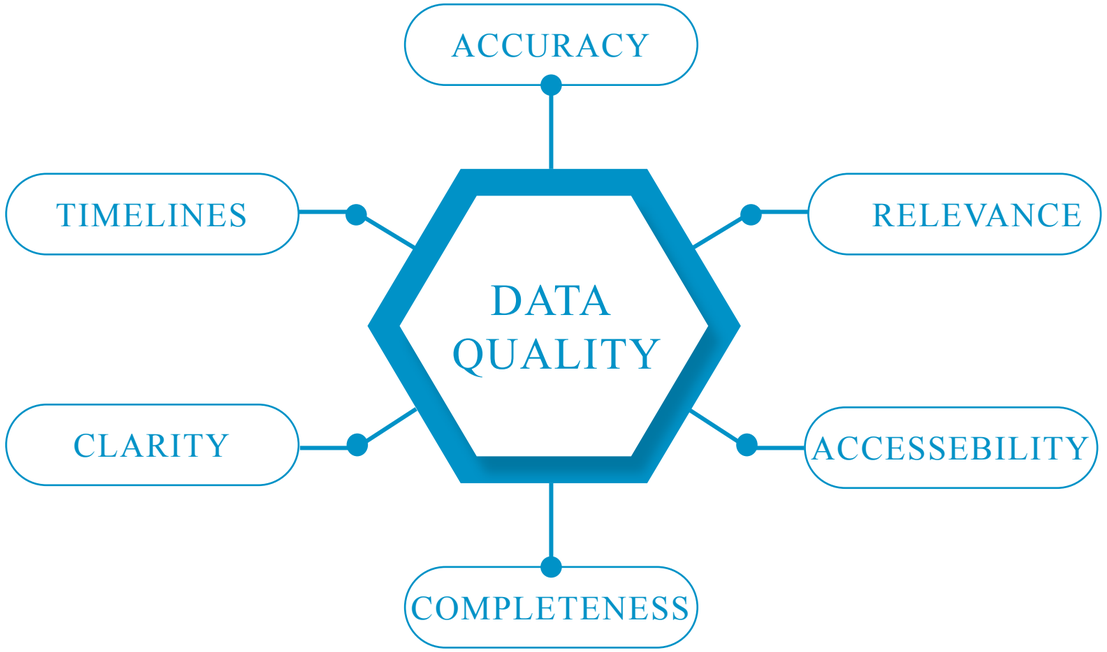
ADMINISTRATIVE SOURCES



Challenges

- Quality of administrative data (accuracy of data, incomplete data)
- Lack of disaggregated administrative and survey data
- Not sufficient financial and human resources
- Not complete metadata document





Future plans

- Review and discuss data gaps
- Prioritize non-produced indicators
- Strengthen national statistical capacities and data collection system
- Implementation of international standards and requirements
- Continue active cooperation with administrative institutions and main stakeholders
- Active cooperation with international organizations and experts
- working with data quality
- Asses and looking for new data sources

THANK YOU FOR YOUR ATTENTION!
