Webinar: High-level expert consultation on digitalisation, energy efficiency and smart grids

11 March, 9.00 – 10.30 CET

This webinar will provide an opportunity for global experts and stakeholders to share real-world experiences in smarter low-carbon electricity systems, and discuss best practices in policies, business models and technology deployment for smart grids to unlock the cost-effective potential of system-wide energy efficiency. The discussion will inform the IEA's expanding work on digitalisation, efficiency and grids, in particular the special focus on grids that the World Energy Outlook 2020 will include.

9:00 – 9:15	Introduction
	Brian Motherway, Head of the Energy Efficiency Division, IEA
9:15 – 9:25	Keynote statement
	Giovanni Brunelli, Italian Ministry for the Environment, Land and Sea
9:25 – 9:55	International perspectives
	Twarath Sutabutr, Inspector General, Ministry of Energy, Thailand
	Wei-Nee Chen, Chief Strategic Officer, Sustainable Energy Development Authority of Malaysia
	Reena Suri, Executive Director, India Smart Grid Forum
9:55 – 10:30	Q&A
